To have a better chance of being successful as a postal bidder we recommend setting a limit for the total amount of your purchases (excl. 20% buyers premium): for example, bidding on a range of lots with a total amount of CHF 10'000 and setting a limit of CHF 7'500 for your purchases means that the total for lots knocked down to you will not exceed the limit you have set. We know from experience that postal bidders are rarely successful on all lots. On the other hand, you might have been interested in other lots as well, but not knowing which lots would be knocked down to you and being worried to spend more than a certain amount, you did not bid on them. Giving a total purchase limit (see also the Bid Form in this catalogue) enables you to have a better chance of being a more successful postal bidder!

To have a better chance of being successful as a postal bidder we recommend setting a limit for the total amount of your purchases (excl. 20% buyers premium): for example, bidding on a range of lots with a total amount of CHF 10'000 and setting a limit of CHF 7'500 for your purchases means that the total for lots knocked down to you will not exceed the limit you have set. We know from experience that postal bidders are rarely successful on all lots. On the other hand, you might have been interested in other lots as well, but not knowing which lots would be knocked down to you and being worried to spend more than a certain amount, you did not bid on them. Giving a total purchase limit (see also the Bid Form in this catalogue) enables you to have a better chance of being a more successful postal bidder!

Neuerscheinung: Österreichische und ungarische Posteinrichtungen in den Donauprätentümern (Rumänien)

Band III der vierbändigen Kommunikationsgeschichte

Auch in diesem dritten Band bleibt der Autor, Dr. Gertlieb Gmach, seinem Anspruch treu und schildert in weiter streng historischem Aufbau die Kommunikationsverhältnisse der österreichischen und ungarischen Auslandspost-einrichtungen in den Donauprätentümern. Dabei werden wiederum die post-historischen Beziehungen zu Österreich ebenso beleuchtet, wie die im internationalen Kontext. Eingebettet ist die Abhandlung in die allgemeinen staatspolitischen - d.h. meist kriegerischen - Interessenlagen der in diesem Raum handelnden Mächte.

Band III befasst sich mit den Postverhältnissen
zur Zeit des Krimkrieges

u.a. mit Aufbau, militärischer und ziviler Korrespondenz der Feldpostanstalten sowie der Einrichtung der Telegrafie in den Fürstentümern Walachei und Moldau,

über die Auswirkungen der österreichischen Währungsreform im internationalen Postverkehr, im DÖPV und im ÖIPV - auch in und nach den Wirren der italienischen Unabhängigkeitskriege

bis zu den Briefmarken in Soldiwährung für die österreichischen Auslandspostexpeditionen in der Levante.

Brief ab Jassy am 18. April 1860 nach Neapel, weitergeleitet nach Wiesbaden. Slg. Camerer

Und so geht's mit Band IV weiter:

Beziehungen zu den einheimischen und anderen fremden Posten, die österreichische Fahrpost in den Donauprätentümern, Tarife ab 1866, Briefkontrollmarken und das Ende des Postdienstes der DDSG, österreichische Auslandsposteinrichtungen in der Dobrudscha

Jeder Band - in gemeinschaftlicher Herausgabe des Münchener Briefmarken-Club e.V. mit Corinphila Auktionen AG Zürich und Heinrich Köhler Auktionshaus GmbH & Co. KG Wiesbaden - ist (auch gesondert) zum Preis von 60,00 € zzgl. Versandspesen zu beziehen über:

1858: 108 parale blue on rose horizontally laid paper, ample to large margins all round, tied by "MICHALENI 8/9 MOLDOVA" cds in blue (Kiriac M1 fig. 280) to piece, reverse with "JASSY 10/9 MOLDOVA" in red. The stamp is backed to repair a thin on reverse, but an extremely rare, maybe unique use of the first Bull's Head stamps in Michaleni. This stamp is shown and discussed in Heimbüchler III, p. 53 being part of a damaged cover, which was obviously reduced to a piece. At the time of publishing his handbook Rumania (1994), Fritz Heimbüchler reported that two stamps Michaleni datestamps described by Poncelet in 1933 have not been traced so far. In part III of his handbook (2007) Heimbüchler mentioned and illustrated this 108 p. from the Bela Sekula Auction (1927) and stated: *'In spite of the 70 years that have passed, it seems likely that the Michaleni postmarked copies will again surface.'* A sensational re-discovery for Romanian Philately. Signed Schlesinger and Kosack; cert. Heimbüchler (2016) Mi = € 15'000 for a detached stamp.

Provenance: Bela Sekula Auction (October 1927) on entire letter.
