France - Aérophilatelie

The Pierre Saulgrain Collection

This extraordinary collection took Pierre Saulgrain (1923-2009) over 60 years to assemble as he acquired an increasing number of autographed cards, covers and other documents relating to French Pioneer Flights between 1908 and 1915. The two major publications based on his collection were the "100 ans de poste aérienne en France (1870-1969)" (1994) and the 1996 issued "Le service postal aérien dans les pays d'expression française".

We, of Corinphila, have the honour to present a true lifetime work with encyclopaedic collections of autographs and documents of French Aviators. In the following positions we offer a wide range of different Air Meetings with vignettes, picture postcards and ephemera as well as Algerian pigeon mail (1906) and Experimental flights. Finally the amazing autograph collection represents a 'Who's Who' of French aviation and comprises more than 580 air pioneers in fourteen volumes.

Napoléon visiting his troops in hospital in Jaffa

3334	Napoleonic Occupation of Palestine 1799 (March 11): Printed letter-sheet headed 'Liberté, Égalité / Au Quartier Général de' written from JAFFA on 21 Ventose Year 7, addressed to the 'Ordonnateur en chef, Daure' (at this time in charge of Transport), signed at base ' <i>Bonaparte</i> '. An extremely rare document, especially so from Jaffa which had fallen to his small force of between 8'000 and 13'000 men on March 7, 1799. Napoleon Bonaparte was in Jaffa for a period of just four days as by the 18th he was already besieging Acre having famously visited (or not, depending whom one believes) his Troops suffering from Bubonic Plague in hospital in Jaffa: the painting by Antoine Jean Gros, now in the Louvre depicts Napoleon visiting the sick on the very day this letter was signed. A remarkable and extremely rare document from this Campaign.	(✉)	3'500	(€ 3'115)

To have a better chance of being successful as a postal bidder we recommend setting a limit for the total amount of your purchases (excl. 20% buyers premium): for example, bidding on a range of lots with a total amount of CHF 10'000 and setting a limit of CHF 7'500 for your purchases means that the total for lots knocked down to you will not exceed the limit you have set. We know from experience that postal bidders are rarely successful on all lots. On the other hand, you might have been interested in other lots as well, but not knowing which lots would be knocked down to you and being worried to spend more than a certain amount, you did not bid on them. Giving a total purchase limit (see also the Bid Form in this catalogue) enables you to have a better chance of being a more successful postal bidder!

3977 1862 (August): 'Abnormal' 3 d. rose, plate 3, wmk. Emblems, perf. 14, lettered I-K, with 'White Dots', a fine used example of this great rarity - lightly cancelled by 927 obliterator of Yarmouth, Norfolk in black leaving the 'White Dot' below the foliate ornament clear at right. A superb example of this stamp in much above average condition with none of the faults usually found on this Abnormal. Cert. (1955) Gi = £ 17'000.

*Provenance: Collection Beaumont, 1965.
Collection Silkin, 1971.*

The history of the first discovery of the 1862, 3d. plate 3 with 'secret dots': extract from 'Stanley Gibbons Monthly Journal' 30 April 1895, page 164.

The 3d. plate 3 with 'secret dots' was first discovered in the 1890's: "...only one copy of this stamp is known to exist used. It was in the collection of the late Mr. G.W.Binns of Manchester, and sold by him to the late Mr. Tapling. It is now in the British Museum. Mr. Beckton informs me that perforated copies are being offered in London unused, but they are perforated with the one penny machine, and appear quite different to the specimen in the Tapling collection. These (unused) stamps are said to have been found in the effects of an official at Somerset House, and to have been perforated many years ago."

Another 3d. plate 3 with 'secret dots', lettered II, also cancelled by the '927' obliterator of YARMOUTH is said to be in the British Library.

6163 2 d. blue, no wmk., rough perf. 13, a vertical strip of four unused, central stamps with variety "Imperforate Between Horizontally", of outstanding fresh colour except for one minor age spot between third and fourth stamp, otherwise near Post Office' fresh with full original gum. A magnificent, extremely fine and rare multiple *ca.* c.1000.

Provenance: From the 'Mayfair Find', Harmers, London, 9 Nov 1925, lot 69. The Find included a pair sheet of 106 stamps with two rows imperforate between horizontally, although the photograph in the original catalogue clearly shows one imperforate row, the second such is not at all clear. This strip is certainly from the find due to its overall freshness and quality and a copy of its position on the Mayfair block of 106 stamps is attached.

6164 6 d. apple-green, no wmk., rough perf. 13, a magnificent unused block of fifteen from lower right corner of the sheet, aged in right margin and corner stamp with small mark, otherwise of lovely fresh colour, minor gum bend unapparent on face, superb og, with nine stamps unmounted og. A lovely block *ca.* c.1700.

Provenance: The 'Mayfair Find', Harmers, London 9 Nov 1925, lot 72.

Woodbridge (alleged to have famously shot 'Red' Baron von Richtofen, the German ace, in a 1917 dogfight) was killed, along with another crew member and the sole passenger. The large part cover, somewhat burnt at top, was taken to Karachi (Sept 15) where an 'Ambulance' envelope was supplied and endorsed 'Protecting Cover' and sent on by registered airmail to Bombay (Sept 18). There are very few recorded covers from this crash and this is certainly the only cover recorded complete with intact 'Ambulance' cover. Illustrated in Nierinck on page 227. Pre-Philately and Stampless Mail

4150	1769: Autographed letter sheet written by Sir Henry Vansittart (Governor of Bengal, 1759-1764) written from Portsmouth and probably sent to Sir George Colebrooke, Chariman of the East India Company in London, the letter ends ' <i>Sir John Lindsay dines with us today</i> ' and is clearly signed at base " <i>Henry Vansittart</i> ". The letter discusses Colonel Francis Forde, who travelled with Vansittart who was on his way to India via the Cape of Good Hope to take up his appointment as Governor General for the British East India Company. They sailed on the ' <i>Aurora</i> ' from Portsmouth on Oct 2, 1769 (a Monday, this letter being datelined ' <i>Sunday evening</i> '), the ' <i>Aurora</i> ' left the Cape on December 27, 1769 and was never heard of again, the ship being lost with all hands.

4331	"ZANTE ERROR" 1862/67: 10 l. orange-yellow on blued paper, used example with large margins all round lightly cancelled at Zante with lower part of Zakynthos datestamp '111' apparent, the datestamp leaving the variety "Inverted Control Figure 10 printed on the face of the stamp" remarkably clear. Reverse without the Control Figures, two tiny thin spots not detracting from the otherwise superb appearance. Just 15 examples (ref. Revenue

4484	1831: 'Kapodistrias / Tessaracontalepton', the famous 40 lepta black typeset on thick laid paper, which some would argue (C. Nicolaidis, C. J. Phillips (Managing Director of Stanley Gibbons), P. Korteweg, Dr. H. Munk, Pemberton, P. J. Drossos) was the first 'stamp' ever issued, a fine marginal example from base of sheet, with value "Lepta 40" impressed, the stamp measuring 36 x 27 mm. and believed to have been printed in Naphlion. However, more recent studies have shown that the 'stamp' was issued to receipt the sum of 40 lepta / 1 piastre, donated by each individual Greek citizen to help defray the Government costs of land grants to thousands of homeless refugees arriving from Crete after the Independence War (1821-28). John Antonios Capodistrias was the President of Greece at the time of the 'stamp's' issue and it was he who instigated the plan for the refugee's resettlement even though there was no Government money available - hence the donation / tax required from each individual. When this amount was paid, the receipt was made with this 'Lepta 40' stamp, the print of which is in the same font as that used by the Greek Government Gazette of the time. Despite the fact that the 'stamp' is now known never to have been used genuinely on a letter and that it is, in fact, a revenue stamp, they are still undoubtedly rare and this is a particularly fine example. To have a better chance of being successful as a postal bidder we recommend setting a limit for the total amount of your purchases (excl. 20% buyers premium): for example, bidding on a range of lots with a total amount of CHF 10'000 and setting a limit of CHF 7'500 for your purchases means that the total for lots knocked down to you will not exceed the limit you have set. We know from experience that postal bidders are rarely successful on all lots. On the other hand, you might have been interested in other lots as well, but not knowing which lots would be knocked down to you and being worried to spend more than a certain amount, you did not bid on them. Giving a total purchase limit (see also the Bid Form in this catalogue) enables you to have a better chance of being a more successful postal bidder!

An exceptional example of this great rarity with **just 5 examples recorded** - one of which is housed in the British Library collection (ex Fitzgerald). Note: Prepared in Constantinople for the planned CIDNA flight from Bucharest to Paris. Due to pressure from the French Embassy in Constantinople and the Lausanne Conference calling for the closure of all Foreign Post Offices within Turkey, the issue was aborted and nearly all examples of this stamp were destroyed and burnt. A recent article by N. L. Cipriani and C. E. Manzati published in the Collectors Club Philatelist (March-April, 2015) showed 10 examples of this stamp from collections / auction catalogues assembled by Messrs. Piermattei and Naddei. The stamp offered above is illustration #4 in their article.

4778 1858: 2 Kr. gelb Type II mit vorderseitigem **Doppeldruck**, letzterer im **farblosen Blinddruck einer 5 Kreuzer - Marke**, dieser etwas nach rechts verschoben, vollzählig, farb- und prägefrisch, kräftig entw. "OFEN 14/12". Attest Ferchenbauer (2017) Ferchenbauer = RRR.

Dr. Ferchenbauer beschreibt dieses Stück und seinen Fund detailliert in seinem Artikel in der BRIEFMARKE (Juni 2016, in Kopie anbei) und führt in seinem Attest aus: "Bei diesem Stück handelt es sich um die zweite bisher aufgefundene 2 Kreuzer-Marke mit einem vorderseitigen Doppeldruck, letzterer etwas nach unten rechts verschobener Blinddruck mit deutlichen Konturen einer Wertprägung '5 KR'. Das ... erste bekannt gewordene Stück dieser extrem seltenen Abart ... ist seit längerer Zeit bekannt gewesen ... Bei beiden Marken findet man übereinstimmend eine minimale, jedoch nicht übersehbare bräunlichrote Farbbeimengung, weshalb durch diese sensationelle Übereinstimmung ein schlüssiger Beweis für die Echtheit der Stücke erbracht ist."

Diese Abart ist vielleicht nicht so offensichtlich wie der Farbfehldruck 3 Kr. rot der 1867er Ausgabe, von dem immerhin sechs Stück bekannt sind, aber das vorliegende Stück ist eine sensationelle Rarität der Ausgabe 1858.

Austrian Levant - Disinfected Mail

Corinphila are proud to present this Exhibit, suitably lotted, showing the development of Disinfection in the Austrian Empire through it's handstruck cachets and wax seals. Many of the letters here are disinfected due to the 1816-1851 Cholera Pandemic. The speed and scale of the spread of this disease was, by any standards, catastrophic. For example, over 250'000 people were infected of which an estimated 100'000 died in Russia alone between 1829 and 1831. Western Europe was not exempt either: with 20'000 lives lost in Paris and over 6'500 in London from this epidemic in 1831. Philatelic references throughout are from the owner's research, 'Pratique' the Journal of the Disinfected Mail Study Circle edited by V. Dennis Vandervelde and 'Disinfected Mail' by Dr. K. F. Meyer (1962)

| 4848 | 1739 (Feb 4): Military entire from a Captain at 'Fort Delgeradt' carried by Military Courier to Vienna and thence by post to Wetzlar with manuscript 'De Vienne' in red crayon, with fascinating contents: "many have succumbed...what with the Plague and a fatal War we know have a fearful Earthquake which has destroyed two casements and split the wall so badly that all hands must be set to repairing it in time for the Enemy whose progress is reported daily...God Almighty heed us in this accursed land...". Disinfected at Semlin with two red wax seals on reverse showing the cypher 'CI' of Charles VI (Carolus Imperator). A marvellous and extraordinary entire.

The Ghica Palace in Colentina, Bucharest in 1859

The Ghica family was a noble family active in Wallachia, Moldavia and in the United Kingdom of Romania, between the 17th and 19th centuries. The Ghicas also held the (agnatic) rank of Princes of the Holy Roman Empire (german: Fürst). Among the many high ranking politicians and persons of culture, members of the Ghica family were:

- nine 'Princes of Wallachia' between 1659 and 1842
- five 'Princes of Moldavia' between 1658 and 1856
- and two 'Prime Ministers of Romania' between 1866 and 1870.

According to Fritz Heimbüchler certificate (Sept. 2017) this entire is one of the finest existing covers bearing the 54 parale and the only addressed to a Romanian Noble family recorded to date!

To have a better chance of being successful as a postal bidder we recommend setting a limit for the total amount of your purchases (excl. 20% buyers premium): for example, bidding on a range of lots with a total amount of CHF 10'000 and setting a limit of CHF 7'500 for your purchases means that the total for lots knocked down to you will not exceed the limit you have set. We know from experience that postal bidders are rarely successful on all lots. On the other hand, you might have been interested in other lots as well, but not knowing which lots would be knocked down to you and being worried to spend more than a certain amount, you did not bid on them. Giving a total purchase limit (see also the Bid Form in this catalogue) enables you to have a better chance of being a more successful postal bidder!
