

# FROM AUSTRALIAN STATES TO THE COMMONWEALTH OF AUSTRALIA 1850-1960

The 'BESANÇON' Collection

*The First Fleet entering Port Jackson on January 26, 1788*

**1788** A fleet of 11 ships with convicts, soldiers and others arrived at Botany Bay in January 1788. Captain Phillip proclaimed the new colony. The first settlement was made at Sydney. The area was known as New South Wales with Sydney as the administrative centre and included all territory east of longitude 135° East.

**1803** The Sydney Gazette of 10 July 1803 first mentions Postal services.

**1825** „Act to Regulate the Postage of Letters in New South Wales“ under Governor Sir Thomas Brisbane.

**1838** „Act to Provide for the Conveyance and Postage of Letters“ under Governor Sir Richard Bourke introduced letter charges according to weight and distance carried.

A cheap local Sydney Post is established by the issue of prepaid embossed stamped envelopes.

**1848/49** Proposals for a uniform rate of postage followed by the „Act to Establish a Uniform Rate of Postage and to consolidate and Amend the Law for the Conveyance and Postage of Letters“ which took effect from 1 January 1850. The Act authorised the issue of adhesive postage stamps.

**1850** The first stamps „The Sydney Views“ were issued. They were engraved locally on copper plates. The 1d. by Robert Clayton, the 2d. by John Carmichael and the 3d. by H.C. Jervis. All three copper printing plates wore rapidly and were variously re-engraved by H.C. Jervis.

**1851** The second locally produced „Laureated“ issue, engraved by John Carmichael and H.C. Jervis on steel plates (1d., 2d. plate I, 3d.) and on copper plates (2d. plate II, 6d., 8d.)

**1852** Stamps to prepay postage made obligatory.

**1854** The third „Diadem“ issue made from engraved steel plates made by Perkins, Bacon in London.

**1856** „Laureated“ Sixpence Registration Stamp.

**From 1862** New issues printed from typographed plates printed by De La Rue in London.

**1879** First appearance of O.S. overprinted Official Stamps

- 6001** 1838/41: (1 d.) 'General Post Office / Sydney / New South Wales' circular embossed seal applied on outer letter sheet, a locally used example addressed to George Street South, cancelled by Crown 'Free' datestamp (April 13, 1848) well struck in red. Initially issued in 1838, the embossed seal was applied at 2 d. per letter-sheet to cover the local rate within Sydney. Due to their unpopularity with the public, the rate was reduced to 1 d. in 1841. Statistics for 1848 show an apparent usage of 300 such letters per week, however most appear to have been thrown away. Fine and clear embossing, a very rare example of the earliest recorded Postal Stationery in the World of Philately.

1854/59, Garter

Sir Rowland Hill

1861: Ormond Hill Presentation Proofs.

Perkins Bacon supplied, in August 1861, six presentation sets of British Commonwealth stamps printed by the company for Hill's family. Each stamp, or uniquely in the case below, Plate Proof, was cancelled by the "CANCELLED" obliterator as used on the 'Colon' issues of Chile. This kind donation to the family was immediately frowned upon by the authorities and led, in part, to the cessation of the Perkins Bacon printing contracts for many Colonies in 1862. It should be pointed out that these stamps were, in effect, the first 'Specimen' stamps produced. For New South Wales the only stamps available in London were imperforate Plate Proofs of the 1854/59 issue and only the 6 pence and 1 shilling values were produced in this manner.
