- 2216** 1928, "Ile de France" Air Post, 10 f. surcharge on 1 f. 50 c. blue, First Day of Issue used on a Registered First Transatlantic Air and Catapult Flight cover, tied by "NEW YORK AU HAVRE" octagonal dated 23 August 1928, used with non surcharged 'Pasteur', 90 c., vertical pair 'White' 5 c. green, and 'Semeuse', 25 c. pair, with the six-line catapult mail special event cachet handstamp alongside, backflap printed "Compagnie Generale / Transatlantique / French Line", a fine, scarce combination and extremely rare stamp on cover. Octave Roumet, expert mark in black to front.

Remarks: The provisional surcharges were produced to support a new service to deliver Transatlantic mail. The First Transatlantic Air and Catapult service utilised a combination of boat and plane to transport the mail. The mail was placed on board the ship and a plane would take off from the ship at a predetermined point. The new Catapult Mail service could speed up the deliver of post by as much as 24 hours, due to the fact that post bags on board ships could not disembark until after the ship had docked. The "Ile de France" provisionals were produced due to the popularity of the first leg of the voyage. Realizing that the ship would not have sufficient postage on board for the return voyage, the French Consul General in New York commissioned Emile Cabella, a New York printer, to surcharge 3,000 90c and 1,000 1.50fr stamps. News of the stamps reached France before the plane arrived and as a result demand was extremely high. the 10f surcharge on the 1f. 50c. being three times scarcer than the 10f. on 90 c. Very few covers exist, Maury lists used on cover at €13'000.

- 2254** 1842/1910, Selection of nine covers, comprising four early stampless examples, four which have various combinations of Cérés French frankings, sent from Post Offices in India and a 1910 envelope unfranked with a combination of Pondicherry and GB postage due marks, noted; 1849 Mauritius to Bordeaux and 1850 Liverpool to Mauritius both with scarce "Packet" marks, two examples sent from India to France endorsed via steamers out of Bombay (1842) and Madras (1854) respectively, both with interesting paid and packet mail marks, as well as four example dated between 1873-1881 sent from Pondicherry to France, one with Pondicherry paid, all with different frankings and three different rates, three which are tied by attractive datestamps, condition is generally fine with just the odd fault which is to be expected with such mailings, a very scarce and attractive group. Paul-Louis-Félix Philastre

2255

- 2255** **French Indochina** 1878 (May 11): Envelope from the French Army in Hue Annam to Paris bearing General Issues Cérés 25 c. blue type I, in fresh colour and with good to large margins, tied by octagonal "CORR. D. ARMEES HUE 11 MAI 78" datestamp in blue, a splendid illustration strike aside. Reverse with "SAIGON COCHINCHINE 28 MAI 18" transit, Marseille - Lille ambulante and PARIS arrival cds's, all in black. Ex collection Provera.

Note: Very interesting and early item from the years between the annexation of Cochinchine and Tonkin and the complete loss of sovereignty in 1884. Despatched in Hue, the seat of the Annamese Emperor; presumably by Paul-Louis-Félix Philastre (1837-1902), a French colonial administrator and diplomat. Philastre arrived in Cochinchina for the first time in 1861. In 1873, he played an important role in mediating between the French colonial authorities in Annam and the royal court in Hué. In 1874, Philastre negotiated the Second Treaty of Saigon with the Annamese court.

- 2518 1879 Umberto I definitives, 1888 (Nov 4): Double rate Registered Envelope from Modena to Nizza, bearing the **extremely rare 30 c. brown** in combination with 25 c. blue and 20 c. orange, tied by light '18' barred obliterator with matching "MODENA (RACOMM)" despatch cds and registration label alongside. Reverse with Firenze - Torino ambulant and NICE arrival (Nov 5) cds's. Signed Emilio & Alberto Diena; cert. Colla (2021) Sassone = € 31'500+.
Note: An extremely rare usage of the Umberto 30 c. definitive, which was sold to the public only for a short time in few larger offices such as Firenze, Genova, Livorno, Milano, Napoli, Padova, Palermo, Roma and Torino. This cover, however, was despatched nine years later in Modena by the famous philatelist and dealer Emilio Diena and directed to his elder brother Carlo Diena. Carlo was born in Modena in 1850, ten years before his more famous brother, and his activity in the philatelic trade was focussed outside the national borders of Italy. Based on the available information, it is possible to imagine that around 1891 he may have finally left Modena to Nice after the death of his father and the closure of the family banking business. As little biographical information exist about Carlo Diena, his death is reported as having occurred in 1892 in Montecarlo. However, correspondence addressed to him a decade later speaks against this assumption.
