4501 Houses of Parliament 2 d. envelope 1840: "To be posted at the Houses of Parliament only / Post Paid.- Two-pence. Weight not to exceed 1 oz.", a fine used example of the 2 d. envelope on laid paper, wmk. Britannia in crowned oval, mailed and signed at lower left by 'C. P. Villiers' and addressed to Richard Cobden in Manchester, struck by 'Crown / Paid' datestamp (Feb 6) in red. Tiny opening tear at base but of great rarity and historical interest, there being but 12 used covers / fronts of covers recorded in the Karl Louis Card Index, of which three are housed in institutional collections Gi = £ 45'000.

Note: The sender, Charles Pelham Villiers (1802-1898), was MP for Wolverhampton and the longest serving MP in Great Britain's history (1835-1898). He was leader of the Anti-Corn Law League and it's most prominent supporter along with John Bright and Richard Cobden until the successful repeal of the Corn Laws in 1846. The addressee, Richard Cobden (1804-1865) was yet to become an MP, being elected in 1841, he too was a passionate advocate of both Free Trade and, in consequence, the Anti-Corn Law League.

The assembly is split into two distinct areas. The first album's primary focus is upon 'Imperial British East Africa Company' adhesives and the second is dedicated to the overprints of 'British East Africa' and the overprinted on India at the Zanzibar Gazette. Both follow a similar pattern of presentation and study with a range of unused, used examples, as well as varieties and where possible different specifications (shades/wmk.) following the catalogue specification. Whilst the majority are singles there are multiples, including strips, blocks and in the case of the first area complete sheets of sixty unused. Little duplication, with unused imperforate singles of the 1890 Lithographed by Bradbury Wilkinson issues, De La Rue 1897/1903 1 r. bright ultramarine (with both other shades) to 5 r. deep sepia unused. 1861, Cancelled Stamps for Rowland Hill's nephew Ormond Hill.

Ormond Hill

On 18 April 1861 Ormond Hill, the nephew of Rowland Hill, wrote to Joshua Butters Bacon the head of Perkins Bacon and Co.:

"My dear Sir, Two or three of my friends who are collectors of Postage Stamps have asked me to procure for them specimens of new or uncommon stamps whenever I have it in my power. It occurs to me that perhaps you may be able to give me a few ..."

He added on 24 April:

"... I should be glad to have six stamps of each kind ..."

On 15 August J. Upham (for J.B. Bacon) sent the stamps to Pearson Hill with the following letter:

"Dear Sir, I beg now to send you as promised ... an envelope addressed to Ormond Hill Esq. containing 6 obliterated impressions of each of the stamps named in the list and request you will take two of each for Rowland Hill Esq. and yourself and then seal the package and forward it together with a letter which you will also find addressed to him, to Mr. Ormond Hill."

It turned out that the supply of the Crown Agents' property was given without authority.

Ormond Hill was not asked to return the „specimens“, and in fact, all were treated as private property. Nevertheless, the case destroyed Perkins Bacon as future printers for the Crown Agents.

Announcing a New Publication from the Royal Philatelic Society London

Coming Soon: *The Mulready Caricature* by Robin Cassell and Richard Hobbs

Two volumes with slip case – 872 pages,
Price £200/£180 (Retail/Members')

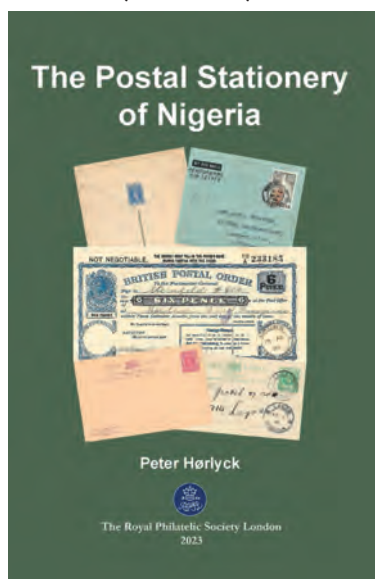

This new work sets out to update the information in the 1984 *British Pictorial Envelopes of the 19th Century* by Bodily Jarvis and Hahn book (BJH) with much more detail on the varied states and printings of these caricatures by the different publishers. BJH listed 305 different copies in 145 different states; we now include 941 copies in 207 states and provide a census of all known recorded copies of Mulready caricatures.

Extensive research into the sale of these caricatures through examination of over 22,500 historical auction house catalogues and from handling many of these items over the past 20 years has enabled us to now record that around 10% of copies have been adjusted in some way. Our research enables the collector to see this “before and after” provenance for the first time. We include in this book 2392 images as colour illustrations of all known copies and an indication of where adjustments have been made to the envelopes.
