- 5138** 3 bani violet, a horizontal pair with scissor cut between stamps, used in combination with horizontal strip of six and vertically bisected 3 bani for the remaining 1 bani due for the 25 bani rate, all on 1872 cover to Vienna and well tied by five strikes of the JASSY single ring datestamp (Feb 23) in black (6 mm to 6 mm). Framed black 'PD' below and reverse showing Vienna arrival cds (26/2) in black. Addressee's name partially erased, one flap missing and scissor cut between third and fourth stamps in the strip, however these are negligible faults on a cover of great philatelic and postal history importance; one of two known usages of a bisect or trisected stamp used to an external address during the classic period. - 5168** 10 bani orange, single example used in conjunction with two strips three (on front and back of cover) with the third stamp diagonally bisected in each, on 1872 registered cover to Vienna. All stamps cancelled GALATZI / SERA datestamps (19/5) in black (6 mm to 6 mm) with both bisects also cancelled in manuscript - as neither bisect was accepted as payment and thus the further single example was applied to pay the correct 50 bani rate. ## Ukraine - The John Lea FRPSL Collection

John Lea's membership of the Royal Philatelic Society started on 12 October, 1944, and thus he is the longest serving member of the Society, with an unbroken membership of 71 years.

Prior to this, in May 1943, John had already published his first philatelic article in 'Stamp Collecting', on the subject of Wartime French Colonial issues and his first article on Ukraine was published in the 'Philatelic Magazine' in February, 1945, for which he was paid, as a schoolboy, the enormous sum of One Guinea.

John's collections have branched out to a Worldwide study of Postal History, from Afghanistan to Egypt, from Scandinavia to Malaya, from Mongolia to Uganda to Wreck & Disaster Mail, all facets are covered in his own inimitable and studious manner.

He has been a constant source of information to all dealers and collectors through his attendance at fairs (some of which he organised), exhibitions (showing at the Royal on five occasions) and local society meetings. To quote John himself in his display of December 2013: 'I have 'hogged' some of these items for close on 50 years and it is time someone else has a chance to house them!'

Corinphila are privileged to have been asked to offer John Lea's Ukraine collection herewith.

Registration cachets in violet and in black respectively alongside and reverse, top flap missing, with Field Post Office datestamp in violet (Oct 20). The Field Post issue was only valid within the Ukraine and their adhesives have also been cancelled by an unidentified 'D.P.' handstamp in black. A remarkable and extremely rare cover, purchased from Roumet in 1950 and believed unique.

*To have a better chance of being successful as a postal bidder we recommend setting a limit for the total amount of your purchases (excl. 20% buyers premium): for example, bidding on a range of lots with a total amount of CHF 10'000 and setting a limit of CHF 7'500 for your purchases means that the total for lots knocked down to you will not exceed the limit you have set. We know from experience that postal bidders are rarely successful on all lots. On the other hand, you might have been interested in other lots as well, but not knowing which lots would be knocked down to you and being worried to spend more than a certain amount, you did not bid on them. Giving a total purchase limit (see also the Bid Form in this catalogue) enables you to have a better chance of being a more successful postal bidder!*
