An unusual combination and rate: the cover is marked '12' grams at top in manuscript, however this would mean the registration fee would have been only 1 piastre: it appears that the accepted date of the rate change (April 1, 1878) may have been acknowledged by the Postal authorities slightly earlier.

1875/1940c. The collection, rather messily arranged, of Travelling Post Offices on loose stamps and pieces (many hundreds) and on covers / cards (175+). A marvellous lot which would repay careful sorting and rearranging. Condition is obviously very variable but many fine and scarce covers noted and we would hazard an educated guess that there are many more examples here than originally notified in Peter Smith's work on the subject. Viewing is essential. (Photo =  www)
