The Hendrik Willem van der Vlist Collection

Corinphila are delighted to present the France and Colonies collections formed by Henk van der Vlist of the Netherlands, built up over the last 75 years, as they were initially begun by Henk's father. The collections cover the entire gamut of French Postal History from 1674 (lot 919) through to a remarkable collection of Post Office Training stamps (lot 954) via Napoleonic Mail, classic period adhesives and covers and a particularly splendid collection of the Postal History of Paris (lot 956) to an extraordinary collection of Algerian Parcel Forms (lot 950); all ably demonstrate the depth and breadth of Henk's knowledge of Philately and Postal History, with Large Vermeil International awards for the Type Sage collection (lot 936), as does his career in organised Philately: a philatelic expert since 1970 for Netherlands and Netherlands Indies, member of the A. I. E. P. (Association Internationale des Experts en Philatélie), a founder member of the A. E. P. (Académie Européenne de Philatélie) in 1978 and a regular contributor to F. F. E. (Fakes, Forgeries & Experts) Magazine and International Jury member.

To have a better chance of being successful as a postal bidder we recommend setting a limit for the total amount of your purchases (excl. 20% buyers premium): for example, bidding on a range of lots with a total amount of CHF 10'000 and setting a limit of CHF 7'500 for your purchases means that the total for lots knocked down to you will not exceed the limit you have set. We know from experience that postal bidders are rarely successful on all lots. On the other hand, you might have been interested in other lots as well, but not knowing which lots would be knocked down to you and being worried to spend more than a certain amount, you did not bid on them. Giving a total purchase limit (see also the Bid Form in this catalogue) enables you to have a better chance of being a more successful postal bidder!
