- 1511** 90 reis black, Early Impression, the famous mint horizontal strip of five from the Second Composite Plate, State A, positions 1-5, showing the vertical marginal connecting line to the 60 reis pane at left, and the full horizontal marginal line at top; a fantastic multiple in a rich shade and of immaculate appearance, one minor bend mentioned for complete accuracy and of no significance and not affecting appearance of this truly magnificent strip - one of the key items for the Brazil classic philatelist, the second largest mint multiple of the 90 reis.

Consul, Pedrick correspondence) and endorsed internally "via Rio de Janeiro", the adhesives tied by CORREIO GEARL DA CORTE datestamps (Jan 29, 1844) in black. Reverse shows manuscript "Forwarded by C. Coleman & Co." and somewhat mothy obverse with minor tape repairs and manuscript "Vapor". The 180 reis charged paying the double ship rate. Illustrated in 'Bulls Eyes on Cover' by Juchert / Maassen on page 154. - 1520** 30 reis grey-black, Intermediate Impression, a fine large margined example sharing small piece with 1845 Inclinado 60 r. grey-black tied by bold strike of framed ALDEIA DA PEDRA handstamp (Ayres fig. 1192) struck well in pale blue. Illustrated in Taveira 'The Slanted Numerals Handbook' on page 414 and in 'Carimbos sobre os olhos-de-boi' by H. B. Ferreira on page 8. Possibly cleaned but a famous and most attractive combination piece in outstanding quality - in our opinion the finest of all of the few recorded Bulls Eye combination usages. Signed Calves. Copy of cert. B. Moorhouse (2013).

Provenance: Collection Alfred H. Caspary, June 1958, lot 499.

Collection Reinhold Koester, Corinphila sale 70, March 1984, lot 4327.

Collection Everaldo Santos, March 2001, lot 12.

Collection Luis Alemany, Corinphila sale 181, June 2013, lot 221.

Note: This piece, in common with the other eight recorded first and second issue combination usages (three are not listed by Taveira in 'Slanted Numerals Handbook', all three ex the José Joaquim Lima Silva Muniz De Aragao collection, Corinphila sale 42, January 1955, lots 6150, 6168 and 6197) has always been contentious. The late Paulo Comelli believed this piece was 'bad' due to the colour of the postmark being in a pale blue. However the description in the Caspary sale states the 30 reis to be 'toned' and this describer believes the pale colour of the postmark is probably due to a slight bleaching when the piece was cleaned by a previous owner.

- 1553** 1863/64: 5 c. yellow, the magnificent irregular 'block' of three, the upper stamp positioned sideways, large margins all round upper stamp and close at base with left stamp corner crease but of exquisite fresh colour, superb large part original gum. - 1729** 1 d. red, variety "Arms Sideways / Frame Sideways", the magnificent strip of nine showing the variety clearly (whilst listed as 'Arms Sideways, it is in fact, the frame which was struck sideways in error), of excellent colour and appearance with part and complete strike of CERTIFICADO and two strikes of TRUJILLO straight line handstamps in black. A few minor imperfections as to be expected on a strip this size but the largest known multiple of this variety with two strips this size recorded - however the other, sold by Corinphila in the Klaus Eitner sale (lot 4149), was probably fiscally used as cancelled solely by pen crosses, thus this is the largest postally used strip and, without doubt, much the finer and more attractive of the two.
