## The history of the famous Narciso Desmadryl mint block of 10

The 10 c. pair on the front of the cover formerly adjoined the block of 10

The block was found attached on the reverse flap on a Nov. 1854 cover to Buenos Aires. The block was unnecessary for postage (thus remained uncanceled) and possibly left there in error.

Über Halbierungen vgl. oben (Preis a. Bf.: —). Auf der Ausstellung 1921 in London befand sich ein Viererstreifen No. 7 + No. 7 halbiert (Porto von 45 C.) auf Brief. Eine ganz besondere Rarität von No. 7 ist in einem Brief (früher in der Samml. Marco del Pont, jetzt Dr. Hahn) erhalten, der von Valparaiso nach Buenos Aires gerichtet, mit 120 C. freigemacht wurde, und zwar vorderseitig mit einem oberen Randpaar mit Randinschrift (das abgestempelt wurde), rückseitig mit einem wasser. oberen Randblock von 10 (2x5) Marken, ebenfalls mit oberer Randinschrift, der ungestempelt blieb.

Extract from Kohl-Handbook compiled in 1925/26 describing the cover with the mint block of 10 on reverse. The block must have been carefully lifted from the cover shortly afterwards preserving practically full original gum.

### 106. RIESCO, R. F. A., London, England. Chile.

A specialized collection, in which attention has been given to condition, especially with regard to the early imperforated stamps.

There are numerous proofs of all issues.

The following may be specially noted among the early issues:

Synopsis of the various printings and shades; many strips and blocks; transfer flaws and pairs of the lithographs; marginal mint block of ten of the 10c Desmadryl printing of 1854; a number of dated entires; many town and other interesting postmarks.

- 5092** 10 c. slate blue, wmk. pos. 1 with marginal 'CORREOS', the magnificent and famous unused sheet marginal block of ten (5 x 2) from top of sheet, positions 6-10/18-22, in wonderfully fresh condition in a sharp impression, with huge margins on three sides and sixth stamp cut into at base, with part sheet marginal inscription "hacia la derecha En mojando el Dorso es preciso cuidar de no..." at top. The block was found attached to the reverse flap of a November 1854 cover addressed to Buenos Ayres, the obverse of the cover bearing a marginal horizontal pair of 10 c. with imprint "...s arriba de la direccion y" showing part of the "h" of "hacia" and thus adjoining the block of ten, the block being unnecessary to the cover and probably left there in error as the rate to Argentina was double the internal tariff. Minute trivial thins and tiny scissor cut in margin only at top well away from the design and not affecting the splendid appearance, reverse with slight indentation made by the original wax seal can be seen against the light. The block was obviously lightly adhering to the reverse of the cover and was removed prior to 1926, fully preserving the gum proved by the two tiny specks of red wax on large part of. The largest recorded multiple of the Desmadryl 10 centavos and the only recorded unused block. Illustrated in 'Chile First Issues of Postage Stamps 1853-1867' by Gerhard Blank on colour plate 4. An outstanding multiple of extraordinary beauty and perfect provenance. One of the most important pieces of both Chilean and South American classic philately. Unique. Cert. Philatelic Foundation (1997). Provenance: Described in the Kohl Handbook in 1925 on page 652.

**5141** On 18 April 1861 Ormond Hill, the nephew of Rowland Hill, wrote to Joshua Butters Bacon the head of Perkins Bacon and Co.: "My dear Sir; Two or three of my friends who are collectors of Postage Stamps have asked me to procure for them specimens of new or uncommon stamps whenever I have it in my power. It occurs to me that perhaps you may be able to give me a few ..." He added on 24 April: "... I should be glad to have six stamps of each kind ..." On 15 August J. Upham (for J.B. Bacon) sent the stamps to Pearson Hill with the following letter: "Dear Sir; I beg now to send you as promised ... an envelope addressed to Ormond Hill Esq. containing 6 obliterated impressions of each of the stamps named in the list and request you will take two of each for Rowland Hill Esq. and yourself and then seal the package and forward it together with a letter which you will also find addressed to him, to Mr. Ormond Hill." It turned out that the supply of the Crown Agents' property was given without authority. Ormond Hill was not asked to return the „specimens“, and in fact, all were treated as private property. Nevertheless, the case destroyed Perkins Bacon as future printers for the Crown Agents. From Peter Jaffe in "Cancelled by Perkins Bacon", published for Spink & Son Ltd by James Bendon Ltd. (1998).

1855: Perkins Bacon, second London printing 5 c. red-brown on blued paper, wmk. pos. 2, a superb large margined used example, wmk. with marginal lines at left, of excellent colour, neatly struck with large part "CANCELLED" obliterator and with large part original gum.
