- 742** Entire letter with the first French stamp as an early but erroneous usage abroad 1849 (Jan 8): Cérès 20c. black on yellowish, a fresh example with good to large margins all round, tied by crisp "LYON 8 JANV. 49" type 15 cds to entire letter, directed to Duderstadt Hannover with endorsement "*franco jusqu'à Strasbourg*" alongside, reverse with "12 .." handstamp. The Cérès stamp was erroneously used to pay the internal postage in France and the cover was taxed first with '8' Sgr. then with '6½' Sgr. upon arrival. A very early usage in France, in addition one of the earliest usages of a French definitive on a cover to Hannover, maybe the first use at all. The sender was Ludwig von Sothen, writing to his brother Karl Wilhelm von Sothen, both members of a local Duderstadt noble family. A fine and very rare entire, cert. Brun (2018).

To have a better chance of being successful as a postal bidder we recommend setting a limit for the total amount of your purchases (excl. 20% buyers premium): for example, bidding on a range of lots with a total amount of CHF 10'000 and setting a limit of CHF 7'500 for your purchases means that the total for lots knocked down to you will not exceed the limit you have set. We know from experience that postal bidders are rarely successful on all lots. On the other hand, you might have been interested in other lots as well, but not knowing which lots would be knocked down to you and being worried to spend more than a certain amount, you did not bid on them. Giving a total purchase limit (see also the Bid Form in this catalogue) enables you to have a better chance of being a more successful postal bidder!
