5 c. red-brown on blued paper in a vertical pair and single 10 c. deep bright blue on yellowish paper, used on the famous cover from Copiapo to Córdoba, with the 5 c. pair with four margins all round and portion of adjoining stamp at base, the 10 c. with ample to large margins. The 5 c. pair tied by two strikes on each stamp of the seven barred target handstamp in red possibly struck twice because of the weak contrast of a red cancellation on a red stamp and the 10 c. with a single strike wonderfully contrasting, with COPIAPO straight line handstamp centrally struck in red. offered together with the

September 1854 Desmadryl printing 10 c. slate blue, wmk. position 1, with marginal 'CORREOS', the equally famous unused sheet marginal block of ten (5 x 2) from top of sheet, positions 6-10/18-22, in wonderfully fresh condition in a sharp impression, with huge margins on three sides and sixth stamp cut into at base, showing part sheet marginal inscription "*hacia la derecha En mojando el Dorso es preciso cuidar de no...*" at top. The block was found attached to the reverse flap of a November 1854 cover addressed to Buenos Aires, the obverse of the cover bearing a marginal horizontal pair of 10 c. with imprint "*...s arriba de la direccion y*" showing part of the "h" of "*hacia*" and thus adjoining the block of ten, the block being unnecessary to the cover and probably left there in error as the rate to Argentina was only double the internal tariff. Minute trivial thins and tiny scissor cut in margin only at top well away from the design and not affecting the splendid appearance, reverse with slight indentation made by the original wax seal which can be seen against the light. The block was obviously lightly adhering to the reverse of the cover and was removed prior to 1926, fully preserving the gum proved by the two tiny specks of red wax on the large part original gum. The **largest recorded multiple of the Desmadryl 10 centavos and the only recorded unused block**. Illustrated in 'Chile First Issues of Postage Stamps 1853-1867' by Gerhard Blank on colour plate 4. An outstanding multiple of extraordinary beauty and perfect provenance. One of the most important pieces of both Chilean and South American classic philately. Unique. Cert. Philatelic Foundation (1997).

*Note: R.F.A. Riesco exhibited this block in the International Exhibition at Grand Central Palace, New York, Oct 16-26, 1926. In his four frame collection mentioned in the catalogue for the exhibition is a "marginal mint block of ten of the 10c. Desmadryl printing of 1854."*

## 1861, Cancelled stamps for Rowland Hill's nephew Ormond Hill

On 18 April 1861 Ormond Hill, the nephew of Rowland Hill, wrote to Joshua Butters Bacon the head of Perkins Bacon and Co.:

*"My dear Sir, Two or three of my friends who are collectors of Postage Stamps have asked me to procure for them specimens of new or uncommon stamps whenever I have it in my power. It occurs to me that perhaps you may be able to give me a few ..."*

He added on 24 April:

*"... I should be glad to have six stamps of each kind ..."*

On 15 August J. Upham (for J.B. Bacon) sent the stamps to Pearson Hill with the following letter:

*"Dear Sir, I beg now to send you as promised ... an envelope addressed to Ormond Hill Esq. containing 6 obliterated impressions of each of the stamps named in the list and request you will take two of each for Rowland Hill Esq. and yourself and then seal the package and forward it together with a letter which you will also find addressed to him, to Mr. Ormond Hill."*

It turned out that the supply of the Crown Agents' property was given without authority.

Ormond Hill was not asked to return the „specimens“, and in fact, all were treated as private property. Nevertheless, the case destroyed Perkins Bacon as future printers for the Crown Agents.

From Peter Jaffe in "Cancelled by Perkins Bacon", published for Spink & Son Ltd by James Bendon Ltd. (1998).
