- 37** Filipino Revolutionary Government 1898 / Overprints for La Union Provisionals: 1898, Assembly of 126 different overprinted unused stamps mounted on three sheets. These stamps are amongst the rarest and least known of the Philippine postage stamps. Between 1 May and September 1898, local Filipino revolutionary forces seized control of the municipal and provincial governments in many parts of the Islands. On 1 June 1898 local officials facing a shortage of available stamps, signed a decree permitting the overprinting of the Spanish Stamps still available. Due to the very limited number of stamps available for overprinting, the decree provided for any available supplies of paper to also be used. Five types of surcharge are known.  
*The Count Ferrari collection (1917/1922) contained the original copy of the resolution of the Municipal Council of San Fernando authorizing the issue of the stamps together with 132 loose stamps and four covers. The Ferrari collection returned to Manila with Don Enrique Zobel who kept the resolution and the four covers, but sold parts of the loose stamps to Carlos Young and Don Jesus Cacho. During the burning of Manila in 1945, the collections of both Young and Zobel were destroyed. The whereabouts of the Don Jesus Cacho collection of loose stamps is unknown. One cover is known to exist with four stamps (Tows collection, sold at public auction in New York, Nov. 1948) shipped in August 1898 by French Paquet Boat to France.*

The cover showing one stamp with close margins and the other seven with ample to large margins all round, the address panel with some acid ink faults and rebanded to protect the cover, without doubt the most spectacular of all second issue Corrientes covers. Jean Ferdinand Joubert de la Ferrière

- 4429** 1871: Die Proof for 1 c. value printed in deep black, covered in mica and inset into De La Rue card dated Nov 12, 1866 at upper left. Slight cuts into the card of the Proof but a splendid Proof demonstrating the date when stamps were first ordered by Guatemala under the Government of President Vicente Cerna and their proposed move to the decimal system. Unique (London 1916).  
*Provenance: Collection Norman Hubbard, Stanley Gibbons, New York, 17 March 1981, lot 76*  
*Note: The engraver, the Frenchman Jean Ferdinand Joubert de la Ferrière, was working for De La Rue in 1866 when the Government Mint in Paris succeeded in gaining the contract to print the first Guatemalan adhesive stamps. The first print run was completed for the 1 centavo value on September 10 and 11, 1867. Due to procrastination and internal difficulties the issue was delayed until 1871. Reverse with 'Correos / Guatemala' circular datestamp of transit (Jan) and Rotherham arrival cds (Feb 26). Un-taxed (Guatemala) had yet to join the UPU and docketed alongside the adhesives with manuscript "Rec'd R.O. (Robert Owen, the addressee) Feb 26, last post" which was possibly the reason the letter escaped Postage Due. This cover was carried on the same day as a quadruple rate cover bearing five 1871 20 c. rose (ex Hubbard, lot 124, illustration with the lot) to the addressee's brother in Sheffield, arriving on the same day and charged 3 shillings Postage Due. File fold crosses the adhesives, however this is the sole recorded cover with a 25 centavos rate to Europe - this being applicable only in the 'decimal' period: March 1, 1871 until January 26, 1872, after which the rate was reduced to 20 centavos. Illustrated in the Goodman handbook on page 46. A magnificent and extremely rare cover, the sole recorded franking. Cert. Moorhouse (2009).

*To have a better chance of being successful as a postal bidder we recommend setting a limit for the total amount of your purchases (excl. 20% buyers premium): for example, bidding on a range of lots with a total amount of CHF 10'000 and setting a limit of CHF 7'500 for your purchases means that the total for lots knocked down to you will not exceed the limit you have set. We know from experience that postal bidders are rarely successful on all lots. On the other hand, you might have been interested in other lots as well, but not knowing which lots would be knocked down to you and being worried to spend more than a certain amount, you did not bid on them. Giving a total purchase limit (see also the Bid Form in this catalogue) enables you to have a better chance of being a more successful postal bidder!*
