- 4429** 1871: Die Proof for 1 c. value printed in deep black, covered in mica and inset into De La Rue card dated 'Nov 12, 1866' at upper left. Slight cuts into the card of the Proof but a splendid Proof demonstrating the date when stamps were first ordered by Guatemala under the Government of President Vicente Cerna and their proposed move to the decimal system. Unique Goodman DP1B.  
*Provenance:* Collection Norman Hubbard, Stanley Gibbons, New York, 17 March 1981, lot 76 Collection Nils Farnstrom; Collection Max Platinga.  
*Note:* The engraver, the Frenchman Jean Ferdinand Joubert de la Ferte, was working for De La Rue in 1866 when the Government Mint in Paris succeeded in gaining the contract to print the first Guatemalan adhesive stamps. The first print run was completed for the 1 centavo value on September 10 and 11, 1867. Due to procrastination and internal difficulties the issue was delayed until 1871. Reverse with 'Correos / Guatemala' circular datestamp of transit (Jan ) and Rotherham arrival cds (Feb 26). Un-taxed (Guatemala had yet to join the UPU) and docketed alongside the adhesives with manuscript "Rec'd R.O. This cover was carried on the same day as a quadruple rate cover bearing five 1871 20 c. rose (ex Hubbard, lot 124, illustration with the lot) to the addressee's brother in Sheffield, arriving on the same day and charged 3 shillings Postage Due. File fold crosses the adhesives, however this is the sole recorded cover with a 25 centavos rate to Europe - this being applicable only in the 'decimal' period: March 1, 1871 until January 26, 1872, after which the rate was reduced to 20 centavos. Illustrated in the Goodman handbook on page 46. A magnificent and extremely rare cover, the sole recorded franking. Cert. Moorhouse (2009).

The Brian Moorhouse International Large Gold Medal Collection

## HAITI - THE "LIBERTY HEAD" ISSUES 1881 - 1887

**One of the most important collections of Haiti - "LIBERTY HEAD" Issues 1881 - 1887 ever formed!**

Haiti both joined the U.P.U. and issued its first series of postage stamps showing the design of the 'Liberty Head' on 1st July 1881. A set of six imperforate values was issued. The Brian Moorhouse collection concerns itself with the imperforate and perforate issues. The collection is among the finest ever assembled incorporating nearly all key items from the famous collections of Thomas W. Hall, Ferrars H Tows, Dr. C.W. Hennen, Dr. Norman S. Hubbard and Enrique de Bustamante. In a display shown on 21st May 2015 to the Royal Philatelic Society, London, Brian summarised: "My own 'Liberty Head' collection started slowly in the 1990's and my first chance to expand it was the Sabbatini auction. Over the next few years I was fortunate to buy the intact Carroll Lloyd collection directly from Carroll himself and I was able to obtain some interesting classic pieces from Wally Dean over a period of time. Other material came from different sources but, again, I was happy to be in the right place at the right time on the occasions when Haiti's two major pieces, the imperforate 1c. multiple with ten tete beche pairs and the registered cover with the strip of four imperforate 20c. values, were available for sale."

The collection was awarded Large Gold at AUSTRALIA 2013 in Melbourne and FINLANDIA 2017 in Tampere, Finland.

**The entire Brian Moorhouse collection HAITI - The "LIBERTY HEAD" issues 1881 - 1887 - can be viewed on [www.corinphila.ch](http://www.corinphila.ch) or by appointment in Zuerich or Wiesbaden/Frankfurt.**

**CHF / US Dollar 595'000.-** (no additional buyer's premium. Subject to Swiss VAT in case the collection will not be exported from Switzerland)

## The Brian Moorhouse specialised Collection CHACO WAR 1932 - 1935

*Paraguayan Soldiers at Alihatá 1932*

*The railway from the Paraguay river to the heart of the Chaco was a vital support line for the Paraguayan army, especially during the battle of Boquerón*

The Chaco region is a triangular shaped area of around 300,000 square kilometers situated between Bolivia and Paraguay. The origins of the Chaco War actually date back to 1924 when Bolivia discovered oil in the Tarija region of the country. Bolivia, a landlocked country since the Pacific War 1879-1883, wished to exploit the full economic benefits by transporting the oil through the Chaco region to the Paraguay River, and to the Atlantic.

The first military skirmish between Bolivia and Paraguay actually took place in December 1928. Negotiations failed to produce a settlement and hostilities resumed in earnest June 1932 and lasted until a final cease-fire was declared on 14 June 1935. At the outbreak of the war Bolivia had some 100,000 trained troops and an airforce of around 50 planes. Paraguay's military forces consisted of some 5,000 mostly ill-equipped troops, an almost non-existing airforce of just five old Fiat biplanes, but a small navy operating on the navigable Paraguay river.

Bolivian Military Mail can be considered as genuinely scarce. At the outbreak of the war, in June 1932, there was no military postal service available for Bolivian troops. Paraguay was much quicker to set up a military postal system establishing a series of thirteen numbered offices known as 'Posta Militars'. The numbers of prisoners of war on both sides of the conflict were approx. 24,000 Bolivian POW's and approx. 2,700 Paraguayan POW's. The International Committee of the Red Cross did not set up a POW information agency in 1932 since the Uruguayan government had already established one. In co-operation with the Rotary Clubs of Asuncion and La Paz the Uruguayan agency had taken charge of forwarding the POW mail to their families.

A fascinating study of an important chapter in history for the South American continent.
