6002

6001 1843 (Aug 21): Entire letter from Braila to Constantinople struck with framed "PORT PAYÉ" rectangular handstamp in brown ink (Tchilinghirian fig. 804), somewhat unclear strike but this handstamp is only found used in Braila and very rarely so.

6002 1844 (May 28): Entire letter from Constantinople to Chios (Mexany correspondence) struck with circular "D.D.S.G. / COSTANTINOPOLI / P.P." in blue-green ink (Tchilinghirian fig. 441). Illustrated in Hans Smith 'The Austrian Post Offices in the Levant' on page 61. An exceptional strike of this rare marking.

Provenance: Collection Hans Smith FRPSL, Corinthila sale 182, Sept 2013, lot 1445.

6003 1844 (Aug 28): Entire letter from Braila to Constantinople struck with circular "D.D.S.G. / IBRAILA / P.P." in blue ink (Tchilinghirian fig. 802). An exceptional strike of this handstamp: the much more available oval Agency marking with gothic 'Ibraila' came into use shortly after this date. No example in the Hans Smith collection, the Lloyd Agency and Consular Office only opened in September 1845 - an extremely elusive marking.

One of the scarcest of all cancellations on this issue (Tchilinghirian recorded just two covers) with this cover being of particularly fine quality. Cert. Holcombe (1992).

Note: The 'Reise' Trip Number datestamps may have been used on the boats 'Giurgevo' and 'Sulina'. This was a shuttle service from Romanian grain loading ports on the lower Danube. Whilst the handstamps are found on D.D.S.G. covers, largely during 1870, they were in use on the Parcel stamps for a few more years, probably until 1875. It is speculated that they were designed to handle packages through Customs / Border Control, as five towns named on the Parcel stamps are on national borders.

Skärgårds Trafik Aktiebolag (STAB)

Skärgårds Trafik Aktiebolag (STAB). The company was originally founded in 1872 by H. Lindroos, T. Sederholm in Helsingfors and B. Howing and S. Törnudd in Wiborg, with a share capital of 50'000 marks. The initial two boats would be travelling between Böback and Helsingfors daily and would be available for use as Tugs between 7am and 3pm. The Company encountered difficulties with increasing competition and was dissolved in June 1906.

Small ink run at right of stamp of negligible importance given that this is the sole recorded usage on cover. Unique.

An outstanding example of this rarity with just 11 known examples printed in green. Specialists have stated that the colours may have corresponded to the D.D.S.G. stamps of the period (thus this would be a 10 kreuzer adhesive), however the general consensus, led by Dr. Ferenc Nagy is that, regardless of colour, the stamps were sold at 5 kreuzer each. Note: The Steamship Tyrvi sailed between Honefoss and Vikersund on Lake Tyrifjord, both towns had previously come under the Drammen Local Post. RUSSIAN COMPANY FOR STEAM NAVIGATION & TRADE

Stampless Mail

The company was established in 1856 and became one of the biggest steamship companies in Imperial Russia. From the beginning the Russian Company for Steam Navigation & Trade (ROPIT) accepted correspondence for forwarding and applied their own postal markings on the letters. Starting from 1863 to 1914 all Russian Post Offices in the Ottoman Empire were run by the Russian Company for Steam Navigation & Trade. The agreement was comprehensive giving the ROPIT Agencies and ships the status of official Postal Branches of the Russian Postal Administration for all mail to and from the Levant and Russia. ROPIT Agencies and ships were supplied with Imperial Russian postage stamps and obliterations, plus a special „Printed Matter to the East 6 kopecks per lot“ adhesive stamp. After the initial two-year experimental agreement expired, the ROPIT issued their own private stamps with the initials R.O.P.I.T., lithographed in Odessa . When a new contract was signed which became effective on 1st. May 1868, the Imperial Russian Postal Administration issued new stamps for the use in the ROPIT offices and the company's own stamps were no longer valid.

The Caribbean and South America

Royal Mail Steam Packet Company (1875)

The Royal Mail Steam Packet Company was founded in 1839 by James Mc Queen. The mail services provided between England and the West Indies were inadequate and inefficient. Based on a contract closed in November 1841 the R. M. S. P. O. Co operated several main routes and in addition various subsidiary routes to cover the West Indian Islands, Cuba, San Domingo and the Central American ports in the Caribbeans.

Clara Rothe / St. Thomas - Puerto Rico

The Steamer 'Clara Rothe' was named after the daughter of the DWI Governor from 1820-1822, she was built at Southampton by C.A. Day & Co., sailing from there to St. Thomas and arriving on 28th March 1865. Due to local opposition to her proposed service between St. Thoms and Puerto Rico she was sold to Haiti between April and June 1866. The stamp issue proposed for the service was ordered by the Frenchman George Nunes from Paris and arrived after the service ceased.

- 6337** Perkins Bacon Master Die Proofs, imperforate, printed in black on thick paper, both with good to large margins all round, each stuck down on non-contemporary white card. Extremely rare with just five sets recorded in private hands.

Note: The difference between the 1 real Die and Plate Proofs can be seen in the smoke from the Steamer: in the Die Proofs the smoke extends to the edge of the inner oval at right. On the Plate Proofs (offered below) the smoke does not reach the inner oval. On the 2 reales value the Die Proof shows a small crack at the base of the '2', this had been repaired on the Plate Proofs.

Provenance: Corinthila sale 84, Oct 1992, lot 5509.

- 6338** Perkins Bacon Plate Proofs (6) imperforate on thick card paper, in issued and unissued colours for the 1 real and 2 reales values, printed in blue, red-brown and in black. Some slight aging on the blue examples but an exceptional group and very rare.

Note: The red-brown examples were printed after those printed in blue. This can be evidenced by the red-brown examples showing elements of blue spotting especially noticeable around the value tablets where the plate had been insufficiently cleaned.

Suez Canal Company (1868)

The Suez Canal Company was founded in 1858 by the French businessman Ferdinand de Lesseps. The company constructed the Suez Canal between 1859 and 1869, connecting the Mediterranean and the Red Seas. The canal is 101 miles long and was opened in November 1869. Adhesive postage stamps were issued in 1868.

6384 1897 (March 17): Lithographed by John Sands & Co. of Sydney, paper by Wiggins Teape of London, gummed by hand in Sydney, the complete sheets of 120 (10 x 12) of the 1 d. magenta-pink & black and the 2 d. chestnut & blue, rouletted 8½, with full sheet margins and imprints reading "Australian New Hebrides Company Limited. Inter-Island Postage." and prices per label, per row of 12 and per sheet. The 1 d. with some negligible splitting and slight stains in lower margin only, the 2 d. with similar marginal stains at base, otherwise fine and extremely rare, just 2'000 sheets of the 1 d. value and 1'000 of the 2 d. are believed to have been printed - these being the sole set of complete sheets recorded.
Provenance: Collection Stan Jersey.
