Reverse with Maiche transit cds and partial St. Maurice arrival datestamp. The Rayon II is touched at top, the Rayon I light blue is a splendid copy from the very rare 'misglückter Stein', the cover with some wear, nevertheless a most interesting and scarce usage. Cert. Kimmel (2000) SBK = CHF 7'000. Note: The sender paid the cover correctly for the third rayon within Switzerland but neglected that such a part payment was not accepted in the January 1850 postal treaty with France. The cover was found by the French postal authorities to have in addition double weight with "2 ports" noted on top of the cover. The sender therefore had to pay '8' décimes upon receipt as if the cover was sent without any adhesives. Reference: Noted in Blaickner - Schweizer Auslandsfrankaturen zur Zeit der Rayon-Marken (1850-1854) as one of five known items sent in the January 1850 rate which was valid until the end of 1851, when the new Swiss Franc was introduced. Upon arrival the PD handstamp was crossed out and the cover was taxed with '9' décimes. Attractive and interesting cover. <i>Note: In October 1875, the GPU treaty was already in force in Switzerland and the majority of the European countries, while France did not join earlier than January 1st, 1876. The 25 rp. franking and the PD handstamp have therefore applied erroneously thinking that the GPU rate was also valid to the French P.O. in Alexandretta. However at that time point, the bilateral contracts were still in force with 90 centimes for an unpaid letter to a French P.O. in the Levant. <b>7363</b>	1867/68: Rivadavia 5 c. vermilion, a used example on 1868 cover from Buenos Aires to Le Havre, France endorsed " <i>pr. Steamer Flamsteed</i> ", tied by ten barred obliterator in black and Buenos Aires cds (Nov 26) in combination with Great Britain 1865/67 4 d. vermilion pl. 10 horizontal pair similarly tied. Carried on the Liverpool Brazil & River Plate Steam Navigation Co. " <i>Flamsteed</i> " to Liverpool (Jan 4, 1869), thence via London where struck with "GB / 1F 60 c." accountancy marking in black. Reverse with both framed "Liverpool / Ship" and "Ship Letter / London" cds (Jan 5) in red. Charged with handstruck '10' décimes due in Calais in black on the following day. A delightful and most unusual cover. Cert. BPA (2004). <i>Note: The cover was intended to be despatched by Royal Mail through the British Post Office in Buenos Aires and was accordingly franked with 8d. For reasons unknown, the sender failed to mail the cover at British P.O. in time and went to the Argentinian P.O. where he paid the 5 centavos Argentinian Inland postage. The RMSP ship had left, thence posted on the private vessel 'Flamsteed' and was, therefore, treated as a Ship Letter. For this reason the British 8d. postage already paid by the two 4d. adhesive stamps were not accepted and the full postage of 10 decimes (= 10 Pence), as from 1 January 1866, was collected from the recipient on delivery in France. The Anglo-French accountancy marking indicates that Britain was granted 1 Franc 60 c. from France (1s. 4d.) per 30 grams weight of mail (or approx. 5d. for this cover assuming the cover was not exceeding 10 grams weight). Corinphila would like to thank Olivier Villard (Argentina) for his kind assistance in explaining the postal handling of this unusual cover.</i> (Photo =  109)	18	✉	<b>1'000</b>	(€ 920)
