160 The Official 1896 Presentation Album of Japanese Stamps: "Dai Nippon Teikoku Ubin Kite Eukakushi" (The Postage Stamp History of the Japanese Empire), with all postage and telegraph issues and postal stationery from 1871/1896 and two 1874 Express labels; printed in both Japanese and English, complete and bound in silk with the original ties for binding at side, binding lightly loosened. The book contains original examples of all stamps except for seven which were no longer available even in the Post Office archives. Between pages 88 and 89 of the book there is a fold-out page detailing the exact numbers printed of the original issues. Contained in a superbly crafted box for its continued preservation. A wonderful example of what is, perhaps, the most sought after book in all philatelic literature of Asia and of the utmost rarity to both bibliophiles and philatelists.

in CHF **approx. €**

3331 4 c. black on orange. Type B on medium wove paper, a fine used example initialled "EDW" (Wight), cut square example, the outer frame line shaved at base but of rich deep colour for this issue, cancelled by "Demerara" datestamp (October 29, 1851) in black. Corner bend and three small thin spots of no great significance, as this is one of the finest examples extant. Certs. RPSL (1986), BPA (2020) *Sc 2 - 100000 (G) - 1 100000*.
Note: The RPSL certificate states this to be Scott 2a, 'yellow', we share the Spink opinion when offered in 2008 that this the 'orange' shade, with which the BPA (2020) also concurs.
Provenance: Spink, London, 12 June 2008, lot 43.

Slight thin spot at top does not detract from the appearance of this extremely rare stamp with excellent provenance. Signed Herbert Bloch. Cert. BPA (2020) *Sc 8 - 1 10000 (G) - 1 10000*.

- 426 1885: Official cover to Cairo sent stampless, struck with perfect bilingual "ABOUXAH" Star & Crescent datestamp (Nov 27, T1) in black (Smith type X-1). An exquisite strike of a very scarce marking: the earliest recorded usage. Signed Todd AIEP. (Photo = 81)
- 427→ 1919: OHMS printed envelope to the Officer Commanding, 44th Stationary Hospital, struck on despatch in Alexandria with "BASE ARMY POST OFFICE / Z" cds (April 8) with framed "AERIAL POST / E.E.F." in black, with oval cachet "Forward Echelon / Egyptian Expeditionary Force". Reverse with reseal 'Please use this envelope again'. Central crease but rare: due to the rebellion Army mail was flown rather than mailed.
Note: In the course of widespread disturbances between 15 and 31 March 1919, at least 800 people were killed, numerous villages were burnt down, large landed properties plundered and railways destroyed by angered Egyptian mobs. For several weeks, demonstrations and strikes across Egypt by students, workers and religious leaders became a daily occurrence. This mass movement was characterised by the participation of both men and women, and by spanning the religious divide between Muslim and Christian Egyptians. The Egyptian Expeditionary Force engaged in mass repression to restore order. (Photo = 81)

On arrival the cover was originally charged '2d.' but the fee was deleted by obliterator at right and was forwarded on to the Grand Hotel, Locarno, Lago Maggiore, Switzerland franked by Great Britain 1883 2½ d. lilac pair tied by "Dursley / 269" duplex (May 26). Reverse with Locarno arrival (May 28). An exceptional and rare cover from the Relief Expedition from a particularly fine letter-writer, no examples of covers from Tani were present in the Danson, Frazer or Ingfield-Watson collections. Signed Todd AIEP.
Note: Captain Orde was mentioned in despatches, received a brevet of Major, the Egyptian Medal and Clasp and the Khedive's Star for the Nile Campaign. He writes: "My dear Alice, we are all in a fever of excitement here with the idea of going down the river...I was told to get all the boats ready on wednesday and telegrams have been flying about like autumn leaves...the health of the Camp is better than at other places but the men are dying off rather too quickly...3 officers have died already and one in hospital is not expected to recover. Most of the cases have been enteric fever. When once the move begins I expect I shall be sent home as they will want to get rid of all the superfluous staff officers as soon as possible as there is nothing to do after we get doen to Abu Fatmeah where we shall have to leave the boats...Of course you will know what the movements are long before we do out here...there wass talk in Camp last night that this coming move is only to concentrate our forces at Dongola...old Gladstone has an awful number of lives to answer for...The Essex are a Regiment of savages and undisciplined beyond belief but they always find the best things. They found and got one of the largest crocodiles I have seen and then caught a turtle and have taken all the goose eggs in the country to eat...The mail from Cairo is late again so we have to close the home mail before the other gets in..."

To have a better chance of being successful as a postal bidder we recommend setting a limit for the total amount of your purchases (excl. 20% buyers premium): for example, bidding on a range of lots with a total amount of CHF 10'000 and setting a limit of CHF 7'500 for your purchases means that the total for lots knocked down to you will not exceed the limit you have set. We know from experience that postal bidders are rarely successful on all lots. On the other hand, you might have been interested in other lots as well, but not knowing which lots would be knocked down to you and being worried to spend more than a certain amount, you did not bid on them. Giving a total purchase limit (see also the Bid Form in this catalogue) enables you to have a better chance of being a more successful postal bidder!

Reverse with London transit (April 24) cds in red and CLONEE arrival (April 26) cds in blue. Obverse with WOODBRIDGE arrival (Nov. 24) cds in green. Heinrich von Angeli

- 463 1894 (Feb 15): De La Rue Essay for the proposed Postal Stationery newspaper wrapper issue, showing the Professor von Angeli head-plate of Queen Victoria, for proposed 1 anna value in a composite design hand-painted in reddish-purple on ivory card backing with Crown, Necklace and epaulette picked out in Chinese white, mounted in sunken card dated "FEB 15th 94." in manuscript at top right. Illustrated in the "De La Rue Collection" edited by Frank Walton on page 4206. The Essay, with points at top and at base was rejected in favour of the issued design with indented top and base of frame. An exquisite Proof of great beauty and importance. Unique.
Note: The Queen Victoria head was from a full length portrait done in 1885 by Professor von Angeli, when India called for new high values De La Rue worked on the von Angeli head as a model. Four fairly crude Essays were prepared in January 1894 for Indian Newspaper wrappers followed by this Essay and a 1/2 anna design in February. The Indian high values followed later in 1895 and a slightly modified design was utilised for the Canadian Jubilee issue in 1897 and, reduced, for Uganda and the first issue of Southern Nigeria.

- 464** **Aden** 1864 (July 17): Envelope presumably from a French serviceman returning from the second Cochinchina campaign, posted at the Indian P.O. in Aden and directed to Nancy, France, bearing two single adhesives of Napoléon perforated 10 c. bistre (Yvert 21 / Maury 21 / Gi 91), cancelled / tied by small barred rhombus '124' numeral of Aden, matching "ADEN STR POINT" despatch cds on reverse. The franking which pays the French soldier's concessionary rate was not accepted by the postal authorities, regarded as fully unpaid and therefore a framed "INDIA UNPAID" handstamp in black was struck on front. Obverse with French "PAYS ANGL. V. SUEZ MARSEILLE" entry (July 31) cds in red, reverse with Paris-Strasbourg ambulant and NANCY arrival (Aug 1) cds. French '9' (décimes) mark indicated the due which had to be paid by the receiver. Signed Calves; certs. Scheller (2011), Sismondo (2014), RPS (2015).

*Note: Almost exclusively only stamps of Ceylon, Mauritius and Great Britain are known to be cancelled by the '124' numeral of the Indian P.O. in Aden, this is the **only known cover with French stamps postmarked in Aden**. 476 1915 (Feb 2): Cover and full contents from Basra to Purley, Surrey endorsed "On Field Service, No Stamps Required" and counter-signed at base "Lt. Genl. A. Barrett, Comm. I.E.F.D.", with reverse showing "Base Office" cds (Feb 3) and readdressed on arrival with "Purley Oaks Sorting Office / Croydon" cds (March 9) to London. Edge wear to envelope of no significance. Extremely rare - from Lt. General Sir Arthur Arnold Barrett, Commander in Chief, Indian Expeditionary Force 'D', the long contents are an astonishingly frank letter with no self Censorship: "we have certainly been fortunate so far, and have managed to get the best of the Turks whenever we have met them. But I fancy we have the toughest part of our job before us yet. The Turks have a large Army and after allowing for the lot who are fighting the Russians in the Caucasus, and for those who are said to be on their way to attack Egypt, they might still bring a goodly number against us - and there are crowds of hostile Arabs, very well armed, in the country as well....The only things we really want and can't get are one or two aeroplanes for reconnoitering work. This is a country without roads, and a good part of the desert consists of swamps...the river is the only way of getting about. We hold as far as a place called Karna [Qurna], 40 miles above this, just at the junction of the Tigris and Euphrates, where we have a strong post. A few miles above that the Turks are entrenched and have blocked the channel of the river with sunken barges with guns in position....I have orders from Gov't not to advance...we also have to guard the oil wells and pipeline of the Anglo-Persian oil company, which lie up to the north east....In a day or two we have the Viceroy [of India] coming to stay...I suppose we shall have to saty here until the War is over; unless there is a revolution in Turkey...they seem to be under the thumb of the Germans. As for when the big war will end goodness only knows - we shall have to push the Germans very hard before they give in, and there are no signs of that at present...".

Note: The British landed on 3 Nov 1914 at Shatt al Arab in the Persian Gulf and after some resistance took Fao. The objective was to secure the oil refinery at Abadan and if Turkey declared war, to occupy Basra. Lt. Col. Barrett (later General) went on the offensive at Saihan, Mohammerah and Qurna to secure Basra. On 9 April 1915 Barrett was evacuated due to illness and replaced b General Sir John Nixon - who two days later faced a Turkish and Arab offensive.

Double arc "MONTSERRAT" datestamp (Sept 11) on reverse, displaying well on flap, with London arrival cds (Oct 2) in red. File fold well away from the adhesive which has slight corner fault; nevertheless an extremely rare usage: this being the earliest recorded date of use (see Parmenter, Gordon & Morton, page 6/13, rarity 'H'). No example of this franking was in the "Besançon" West Indies or the "Glassco" and "Dubois" British Post Offices Abroad collections. 692 PSNC & RMSP 1876 (Sept 24): Cover from La Chimba (Antofagasta) to Berlin, printed endorsement "Per Steamer via Panama" at top, franked by Great Britain 1865/73 4 d. vermilion pl. 14 in a horizontal pair, tied by intaglio "CORREOS DE LA CHIMBA / BOLIVIA" oval in greenish-blue, with two further strikes of fancy framed "CANCELADO" in same ink at right, showing the cover to be prepaid on despatch (and probably adhesive stamps had run short), Great Britain 1874/80 6 d. grey pl. 15 pair applied and tied by fair "C39" obliterator in black at Cobija, overpaying the 1/7½ d. rate by a penny. Carried on PSNC Steamer to Panama and thence on the RMSP "Don" to Plymouth. London / Paid transit in red and reverse with arrival (Jan 11). One of only two recorded covers with the La Chimba oval cancelling British stamps (both were in the Dale-Lichtenstein collection), Nissen provenance notation on reverse in pencil. *Dr. Manuel Bustamante
Miniser of Finance in Ecuador*

859 ½ real green on greenish wove paper, a fresh and fine Plate Proof on ungummed paper with large margins all round, slight hinge thin at top not affecting the appearance. A scarce and most interesting Proof in the issued colour of the 1 real. It is stated that the issue was designed by Emilia Rivadeneira who copies the Greek Large Hermes Heads for her design. This Plate Proof matched very closely the Large Hermes 5 lepta value both in colour and the shade of the paper - indeed the three original stamps are in the shades utilised for the 5, 10 and 20 lepta values.

A few trivial imperfections but a rare and attractive multiple.

Note: The earliest recorded date of use for the Ecuador first issue is 4th January 1865 on a ½ real used in Quito and also on a 1 r. orange-yellow. The 1st January 1865 was a Sunday and it is probable the stamps were delivered to Post Offices on the the following day and actually issued on the 3rd or 4th of January; certainly this last date marked the first shipment of adhesives to Guayaquil.

994 Lecoq 1 d. vermilion, a single example used on 22 October 1865 entire letter from Lima to Santander, Spain; the letter delayed due to the 'Guano War' and the consequent blockade of the Port of Callao after War was initially declared by Chile on September 15, 1865. Franked for internal rate and tied by 'Lima' cds in black (Nov 28) with framed "FRANCA" at left (Lamy & Rinck fig. 113), the entire was evidently carried home by a Spanish Man-of-War as no other markings are present except for the "8.R." due marking in red. Some overall soiling but very rare.

Note: The 'Guano' War or Chincha Islands War, was a series of coastal and naval battles between Spain and its former colonies of Peru, Chile, Ecuador, and Bolivia from 1865 to 1866. Even before Chile and Peru were formally allied, Spain had suffered a humiliating naval defeat at the naval Battle of Papudo on November 26, 1865 where the Chilean corvette Esmeralda captured the Spanish schooner Covadonga, taking the crew prisoner and seizing the admiral's war correspondence. Peru declared war on Spain on January 12, 1866.

Note: 1865 (Dec 30). Under a postal decree, letters between Lima, Callao and Chorillos sent after Jan 1, 1866 would be carried at half the normal 10 centavos / 1 dinero inland rate; thus a 5 centavos franking was required. - 1042** 1873 (March 1): Lecoq 'Llamita' 2 c. blue, rouletted horizontally, the extraordinary strip of 40 stamps showing the change in printing orientation from the Lecoq 1 dinero values to vertical, with third stamp showing Coil Join, 20th stamp, showing Coil Join and the 37th stamp showing Coil Join; thus one in every seventeen stamps received a Coil Join overlap. The strip with two stamps creased for display, minor stains from the full brown original gum with hinge remnants to secure the roulettes, this stamp received coloured cuts to separate the stamps rather than the previous pin indentation holes. The greatest rarity and most important item of the issue (Herbert Moll). A museum piece Scott = \$ 2'000+++.
Note: This value was issued to pay the Local Postage within Lima, decree reducing the rate from 5 to 2 cents dated 1 March 1873.

- 1354 1914: Postkarte aus ALBERTVILLE, Belgisch Kongo mit Abgangsdatum 8. Juli 1914 nach Schweden. Diese Karte wurde bei Kriegsbeginn in DOA zensiert und erhielt keine weiteren Stempel. Es ist daher nicht sicher zu sagen, wie und wann der Weitertransport stattfand, Es ist zeitlich aber denkbar, dass dieser mit Parlatetärspost im September 1914 erfolgte. In jedem Fall ist eine Transit Zensur in Ostafrika in der Literatur wohl Aufgrund der Seltenheit gar nicht erwähnt. Ein phänomenaler Beleg für die grosse Sammlung. ✉ 1'000 (€ 960)

1381	1945/1990: Grossartige Sammlung Nachkriegsdeutschland in 24 Bänden. Die Sammlung beinhaltet vieles was in Nachkriegsdeutschland "Rang und Namen" hat. Der Sammler hat sich darauf konzentriert so zu sammeln, wie es ihm Spass machte, daher sind manche Ausgaben auch hochwertiger Natur mehrfach vorhanden, während andere fehlen. Sie beginnt mit den "Gemeinschaftsausgaben" sowie "AM Post". Die Bauten der "Bizone" sind stark spezialisiert, dabei unter anderem die Markwerte 97-100 wg in postfrischen Paaren vom Oberrand sowie ein sogenannter "JEIA" Brief mit der Luftpost Vignette und entsprechendem Attest. In diesem Sammlungsteil sind viele Werte auch noch einzeln postfrisch vorhanden. Die französische Zone beinhaltet neben vielen Briefen auch Baden "Ingenieurkongress" 30 Pfg schwärzlichblau beide Typen sauber gestempelt (Mi. 46 I und 46II). Bei Berlin ist der "Schwarzdruck" (Mi.1-20) postfrisch komplett in Oberrand Paaren, gestempelt mit Attest, der "Rotaufdruck" (Mi. 21 -34) postfrisch per zwei, Block 1 gestempelt mit Attest, sowie diverse zum Teil sehr gute Briefe. Der Teil Bundesrepublik enthält die Marienkirche insgesamt 14 Mal, sowohl postfrisch, gestempelt und auf diversen Belegen. Der "Posthornsatz" (Mi. 123-138) ist postfrisch per drei vorhanden, es finden sich auch immer wieder Briefe mit kleinen und grossen Besonderheiten. Bei Neusaar sind der Europarat (Mi. 297/298) sowie Volkshilfe 1950 gestempelt, jeweils Attest Ney. Die Erhaltung ist meist sehr gut, einige wenige Stempel mögen neuer Prüfung nicht standhalten. Die Sammlung wurde weitgehend zusammengetragen bevor die Prüfung ein muss wurde. Daher sind die meisten Stücke unsigniert. Aufgrund der unterschiedlichen Mengen ein nicht ganz leicht zu kalkulierendes Objekt mit sehr viel Potential.	✉**	3'000 (€ 2'880)

Gibbons Start price in CHF approx. €

6093 First day of usage 1849: Cérés 20 c. black on yellow paper, a fine and fresh example with good to large margins and parts of the upper neighbouring adhesive, tied by type 15 "GRENOBLE (57) 1 JANV. 49" cds on the first day of the issue to cover, a clear information strike at left. The cover directed to Gap, reverse with arrival cds of the next day. Lightest file folds well away from the adhesive and the datestamp, nevertheless an extraordinary and appealing cover, a perfect stamp and the datestamp ideally documenting the usage at the first day of issue of a French stamp. Cert. E. Drona (1988), Calves (1989) *Used* - € 17.900 (May 7 - € 6.500).
 Note: During the two first weeks of January 1849, the cancellation of the newly issued stamps was not well organized. Two circulars by the Postal administration led to confusion in the Post Offices on the methods of obliteration. A planned cancellation by a grill obliterator was not available prior to the third week of January.
 Provenance: Dubas collection, Robineau auction (Nov. 1987), lot 370.

Ballon Monté - The flight of the "Ville d'Orléans"

The Svein Arne Hansen Collection (part I)

Pilot Paul Rolier

The Flight of the "Ville d'Orléans"

The appalling horrors of two world wars within a single generation were the catalyst for the formation of what is now the European Union. It is often forgotten, however, that France and Germany had, in fact, also gone to war just 44 years before the first global cataclysm. Napoleon III's disastrous declaration of war on Prussia July 19, 1870, led directly to the siege of Paris, which lasted from September 18, 1870, to January 28, 1871, and produced some of the most famous balloon mail in history.

Ballon Mail Instituted

The main means of getting mail out of Paris was the manned balloon, or Ballons Montés, which ascended from the city's centre - usually the Gare du Nord - at regular intervals. Specialists in the Franco-Prussian war are able to allocate most letters to individual balloons by the date stamps of their acceptance by the post offices and their receipt.

By the time the Administration of Telegraphs came to sponsor the 33rd. balloon - the 28th. to carry mail - on the 67th. day of the siege, flights were regarded as routine. The 33rd. balloon was named the "Ville d'Orléans" in honour of the town recently liberated by French forces. The captain, or "aerostier", of the balloon was 26-year-old Paul Rolier, a civil engineer who volunteered and had just completed a short course in how to fly a balloon. Rolier was accompanied by one passenger, Leonard Bezier. When the balloon set off just before midnight November 24, 1870, it was carrying four post bags, each containing one day's mail, with a total weight of 250 kilos.

"Ville d'Orléans" with Pilot Paul Rolier and passenger Leonard Bezier

The "Ville d'Orléans" dangerously low over the North Sea

The flight

The balloon rose rapidly and was soon out of range of Prussian guns. In the early hours of November 25, at a height of 2.000 meters, they were enveloped in thick fog. As dawn broke on November 25, the balloon began to drop through the dispersing fog. Then, to their horror, as the balloon descended further, they realised that they were flying over the North Sea. They were losing height and to ditch in the sea would be fatal. Desperately they threw ballast, parcels of propaganda leaflets, and newspaper overboard and tried in vain to descend near passing ships. Later more bags of sand were jettisoned into the sea, along with the largest mailbag. Around mid-day the balloon was observed off the coast of southern Norway, near the town of Mandal, before it disappeared into thick fog.

Rolier and Bezier watching as "Ville d'Orléans" flies away

Descent to Norway

Shortly afterwards, Rolier decided to descend. Through a break in the fog, he realised that they were over some mountains. They managed to bail out of the balloon's basket into the snow at a place called Lifjell, about 100 kilometres southwest of Oslo. They were, however, unable to secure the balloon, which drifted away with the rest of the mail, six carrier pigeons, and their food. They had been in the balloon for 14 hours, 45 minutes, covering almost 1.300 kilometres (a World record at the time). Only when they were found by the Strand brothers in a temporarily empty shack, did Rolier and Bezier realize that they were in Norway.

The "Mandal Mail"

Meanwhile, the large mailbag had been retrieved from the sea on November 27 by fishermen from the Mandal area and, having been dried off with blotting paper from the Mandal bookshop, the French Consul in Christiania (now Oslo) was informed. He had the mail immediately sent on to him; and it was placed on a boat for Scotland on November 28. Thereafter, it was sent to London where it was distributed after December 2. It is known in philatelic circles as "Mandal Mail".

The "Tunet Mail"

The balloon itself, with its basket intact, was found on Friday, November 25, on a hillside about 80 kilometres from its first landing, near Tunet farm. The remaining post from this salvaged balloon is known as "Tunet Mail". Rolier and Bezier set off for France (with the mail from Tunet farm) reaching Tours on December 8.

To identify mail from the "Ville d'Orleans", look for Paris departure date stamps between November 20 - 24, 1870. The "Mandal Mail", from the sack dumped in the sea has en route 2 December 1870 London date stamp (and frequently the adhesive stamps are missing).

Extracts taken from an article "Paris to Norway: The Flight of the "Ville d'Orleans" by Michael Meadowcroft, in "The Posthorn", pages 3 - 6, May 2005. Edited by Corinthila.

"The Posthorn" is the magazine of The Scandinavian Collectors Club, a United States-based philatelic society dedicated to the collection and study of the postage stamps and postal history of the Scandinavia region. Michael Meadowcroft, the author, is a former Member of Parliament.

Die gemeinsamen Angelegenheiten sollten von einem Reichstag erledigt werden, der aus einer direkt gewählten Volkskammer und einer von den Landtagen beschickten Länderkammer zusammengesetzt sein sollte. Dieser Entwurf, in dem der Kaiser nur ein aufschiebendes Vetorecht besaß, war ein Versuch, die Habsburgermonarchie zu einer Art "Völkerbund" umzugestalten.</i> (Photo =  341) | ✉ | 150 | (€ 145) |

1686 Halbierung 1850: 2 Kr. schwarz Type IIIa, die rechte untere Hälfte einer diagonal halbierten Marke, farbintensiv und breitrandig, klar und auf drei Seiten über die Halbierung übergehend entw. "TOPOLYA 5/11" (1857; Woiwodschaft Serbien) auf grossformatigem Drucksache mit Traueranzeige in ungarischer Sprache (gereinigt, Kanten gestützt), versandt nach Baja, rücks. mit Transit "M. THERESIOPEL 6/11" und Ankunftsstp. "BAJA 7/11". Halbierte 2 Kr. – Marken zur Begleichung des 1 Kr. - Drucksachenportos, gerade auf Todesanzeigen existieren laut Rohlfs – Ungarn Halbierungen 17 mal auf Brief. Sie gehören somit zu den 'häufigeren' Halbierungen, deren Existenz neben Markenmangel auch darauf zurückzuführen ist, dass israelitische Kultusgemeinden lieber halbierte 2 Kr.-Marken benutzten anstatt der gelben 1 Kr.-Freimarke, da die Farbe Gelb im Judentum mit Freude assoziiert wird. Puschmann vermutet, dass durch die Reinigung des Briefes nicht nur ästhetische Mängel beseitigt werden sollten, sondern auch eine möglicherweise vorhandene Taxierung entfernt worden ist. Ein Brief mit langer Provenienz für eine fortgeschrittene Sammlung. Signiert Edwin Müller und Bloch; Atteste Puschmann (1990), Ferchenbauer (2006) Ferchenbauer = € 55'000.

Referenz: Das vorliegende Stück wird bei Rohlfs auf S. 122 abgebildet und diskutiert, bei Jerger – Allgemeine und besondere Frankaturen zudem auf S. 308 erwähnt.

The word is that about 100 Austrian soldiers have fallen, especially the bedienungs mannschaft (operating crew, probably of the Artillery) who have lost a third of their number. Our artillery have lost their horses but the enemy has lost 7 to 800 men. After a hard battle the Prussians have pulled back towards Mähren, but we foreigners were in Vienna two days later, the Galicians under Oberst. Mandl are known as the Iron Brigade. After three days rest we marched northwards again over the Danube in the direction of Aspern and Wagram and around the Floridsdorf defence (schanzen)....After the battle at Blumenau it was an horrific scene that in 7 hours so many fine men should be dead and our Artillery almost gone..". He also comments on the fortunate timely transfer of replacements from the "S.M.S. Andreas Hofer", more by accident than design to keep up the ship in readiness and up to strength.*

- 1792 **Romania** 1844c: Cover from Galatz to Constantinople struck with overinked circular "D.D.S.G. / GALATZ / P.P." in brownish black (Tchilinghirian fig. 808). A very scarce handstamp on cover from the well-known Zafropulo correspondence, cover with stabilised vertical file fold well away from the strike, an elusive usage.
- Note: Tchilinghirian & Stephens mention that this handstamp was probably manufactured in Constantinople for fully prepaid covers with markings existing only for the offices in Constantinople, Galatz, Ibraila and Varna, starting in August 1844. The Lloyd Agency and Consular Office only opened in September 1845 and took over the the deep water services from the DDSG which restricted its services to the Danube and the route to Odessa. This postmark can be found up to 1865, even as an obliterator on DDSG adhesives.*

1879	1858: 30 k. lilac-red & green perf. 14½ x 15, fresh colour and well centered, watermark '3' shifted slightly to the bottom, pen cancellation removed and stamp cleaned, perforation repaired. As this stamp was issued not earlier than February 1858 and as pen strokes were used only in the two first months of 1858 as sole cancellations this is an extremely early use of the 30 k. stamp. In spite of its imperfections and modifications this is a scarce and desirable example of the rarest classical Russian stamp. Opinion Buchsbayev (2014) Mi = EUR 3'000 for a used stamp. - 6695 1858 (July 20). Cover from Taurigen to Riga, bearing 1857 10 kop. brown & blue imperf. from Plate II, a fresh and fine adhesive with large to huge margins all round, tied by crisp oval ∇ dotted numeral obliterator, prephilatelic boxed "ТАИРОГЕН 20 ИЮЛ. 1858" despatch and POLLUCHENO arrival datestamps on reverse. A most attractive usage. Cert. Mikulski (1986) in crown.
- Note: In July 1858 numeral dotted obliterations came into use throughout Russia, an early usage.
- 6696 1858 (Aug 22). Entire letter from Bezdiansk to Taganrog, bearing 1858 10 kop. brown & blue perf. 14 $\frac{1}{2}$: 15, a superb example, tied by excellent dotted rectangular "443" numeral of the Bezdiansk post office. Reverse with two line despatch cds. Light horizontal fold well away from the adhesive just mentioned for accuracy, a beauty.
- Provenance: Collection Agathon Fabergé with his pencil note on obverse. (Photo = [1] 193)
- 6697 1858 (Oct 17). Cover from Kovno to Warsaw, bearing 1858 10 kop. brown & blue perf. 14 $\frac{1}{2}$: 15, a fresh and fine example, tied by clear dotted circular "19" numeral in blue of the governmental post office in Kovno. Reverse with despatch cds in blue and WARSZAWA arrival (Nov 1, julian) cds in red. A beautiful cover with this rare blue cancellation, following Zdzieniec Mikulski, only three covers with the blue "19" on Number 2 are known. Cert. Mikulski (1991).
- Reference: Another comparable cover bearing an imperforated Russia number One with a blue "19" obliterator from the same correspondence is shown in Guido Craveri's census on page 96.

- 6711 1864 (Oct 1). Entire letter from Peterhof to St. Petersburg, bearing 1863 (Aug) City Post stamp 5 kop. black & blue, two fine and fresh examples, tied centrally by neat "PETERGOF 1 OKT. 64" despatch cds. Reverse with another information strike. Cert. Mikulski (1992).
- Note: Correctly franked letter from Peterhof to St. Petersburg, an extremely rare franking with two examples of the city post stamps. During the summer months, when the Tsar stayed in his summer residence in Peterhof, this village belonged to the Petersburg postal district and one city post office stamp was sufficient for a letter to St. Petersburg. A series of a cover from the same correspondence with only one example of the city post stamp, but despatched in July 1864 is included in the lot. From autumn to spring, however, the normal inland rate of 10 kop. had to be paid as can be seen in this case. A stunning piece from the first period of 1863-1864, when the city post stamps could be used only locally within St. Petersburg or Moscow.
- The receiver of this letter is Cornelius Otto Schütt (1798-1865) with his address being "at the Moska, corner Karpovij perelok, in his own house, St. Petersburg". Schütt came from Hamburg and was the founder of a famous brewers dynasty in St. Petersburg.
- Provenance: Pavlovsk collection, 52. Corinphila sale (March 1996), lot 4519.

1955	Syria, Austrian / Ottoman Posts 1856 (Nov 6): Entire letter from the Sardinian Consul in Constantinople (full oval black seal on reverse), mailed to the Sardinian Consul in Aleppo via Alexandrette, struck at left with "L.A. From the Austrian Post / Aleppo" negative seal in black with Roman 'L.A.' (Tchilinghirian & Tranmer fig. 1 / Müller 2024a = 1'400 pts.) - unlisted in Coles & Walker - this handstamp was used on transit mail between 1855 and 1856 only when withdrawn possibly due to Ottoman complaints, probably applied at Alexandrette, with very few examples known. The sole recorded entire not from the Dahlah correspondence, fine and very rare. Ex collection Keith Tranmer. <i>Note: This is the only bilingual Austrian Levant postmark - a rarity only in use from 1855/56. Ing. Edwin Müller (1960) knew only two items with this cancellation in black, a number not changed until 1976, when Keith Tranmer published his study on this subject (see collection 'Monte Napoleone', Corinthila sale 78, Sept. 1988, lot 895; collection 'Cihangir', Corinthila sale 121, May 2000, lot 1929). Keith Tranmer originally stated that this handstamp was used only as an arrival mark. However four covers, all struck in 1855/56 in blue or blackish blue and all being part of the same Dahlah correspondence, sent via Trieste or intended to be sent via Trieste to London, where this postmark clearly functioned as a temporary despatch postmark (Collection Franz See, Corinthila sale 62, May 1979, lot 2423; Collection 'Cihangir', Corinthila sale 121, May 2000, lot 1994 & Corinthila sale 124, Oct 2000, lot 5756). Boy Scouts

The Late Alfred Scherb Collection (part II)

Milestones of the World Scouting 1907-57

The Late Alfred Scherb Collection (part II)

On January 24, 1908, the Boy Scouts movement began in England with the publication of the first installment of Robert Baden-Powell's handbook 'Scouting for Boys'. Boys loved the lessons on tracking, observation and organized elaborate games using the book. Hearing this, Baden-Powell decided to write a non-military field manual for adolescents that would also emphasize the importance of morality and good deeds. First, however, he decided to try out some of his ideas on an actual group of boys. On July 25, 1907, he took a diverse group of 21 adolescents to Brownsea Island in Poole Harbour, Dorsetshire where they set up camp for a fortnight. With the aid of other instructors, he taught the boys about camping, observation, deduction, woodcraft, boating, life-saving, patriotism, and chivalry. Many of these lessons were learned through inventive games that were very popular with the boys. The first Boy Scouts meeting was a great success. With the success of Scouting for Boys, Baden-Powell set up a central Boy Scouts office, which registered new Scouts and designed a uniform. By the end of 1908, there were 60,000 Boy Scouts, and troops began springing up in British Commonwealth countries across the globe. In September 1909, the first national Boy Scout meeting was held at the Crystal Palace in London. Over ten thousand Scouts attended, including a group of uniformed girls who called themselves the Girl Scouts. In 1910, Baden-Powell organized the Girl Guides as a separate organization.

1944 (August 1 to October 2), Scout's Post during the Warsaw Uprising

Scout's Post during the Warsaw Uprising

1944 (August 1 to October 2)

The Polish Scout's Postal Service played a key role in maintaining contact between the inhabitants in the Warsaw Ghetto. Communication was maintained by messengers or couriers: 10 to 15 year old Boy Scouts and Girl Guides of the 'Grey Ranks'. The 'Grey Ranks' was the wartime name of the Polish Scouting Movement and by the time of the 1944 Uprising August 1 to October 2, and had developed an excellent organisational Network.
