Note: Tchilinghirian & Stephens mention that this handstamp was probably manufactured in Constantinople for fully prepaid covers with markings existing only for the offices in Constantinople, Galatz, Ibraila and Varna, starting in August 1844. Cataldo, Girgenti, Corleone, Borgetto, Monreale, Mirabella in the first week of the revolution (Jan 9, 1848), Trapani, Palermo, Siculiana, and Termini. Interesting lot. <i>Reference: The 1848 revolution was substantially organized from, and centered in, Palermo. The Sicilian nobles were immediately able to resuscitate the constitution of 1812, which included the principles of representative democracy and the centrality of Parliament in the government of the state. The idea was also put forward for a confederation of all the states of Italy. However the Sicilian Parliament was never able to control the well fortified city of Messina, which ultimately would be used to take back the island by force. Thus Sicily survived as a quasi-independent state for sixteen months, with the Bourbon army taking back full control of the island on 15 May 1849 by force.</i> (Photo = www)	✉	150	(€ 145)

During the summer months, when the Tsar stayed in his summer residence in Peterhof, this village belonged to the Petersburg postal district and one city post office stamp was sufficient for a letter to St. Petersburg. A xerox of a cover from the same correspondence with only one example of the city post stamp, but despatched in July 1864 is included in the lot. From autumn to spring, however, the normal inland rate of 10 kop. had to be paid as can be seen in this case. A stunning piece from the first period of 1863-1864, when the city post stamps could be used only locally within St. Petersburg or Moscow.
The receiver of this letter is Cornelius Otto Schütt (1798-1865) with his address being "at the Moika, corner Kirpivnij perulok, in his own house, St. Petersburg". Schütt came from Hamburg and was the founder of a famous brewery dynasty in St. Petersburg.
