GREAT BRITAIN: MINT VICTORIAN STAMPS & ST. LUCIA: MINT FIRST ISSUES THE 'CHATEAU DU SOUDUN' COLLECTION

This was the simple declarative statement from "The Best Car In The World" more than 100 years ago. The passion for perfection began with Charles Stewart Rolls and Sir Frederick Henry Royce with the formation of the Rolls-Royce Car Company in March 1906.

Passion for quality and perfection in Mint Victorian Stamps was also of paramount importance to the collector, Adam Shields, who formed "The Chateau du Soudun" collection. Besides outstanding quality every single item was specifically selected for its beauty. The whole range of the collection from the more 'common' to the most elusive stamps are represented in outstanding condition. Quality and aesthetic appeal of "objets des arts en miniature", produced by the world's leading printers in the 19th century: 'Perkins Bacon & Co.' and 'Thomas De La Rue'.

The sale of "The Chateau du Soudun" collections of Great Britain Mint Victorian Stamps and St. Lucia Mint First Issues is surely the ideal opportunity for a stamp collector to take a new challenge. Experience an elusive selection of Victorian philatelic beauties.

"The Chateau du Soudun" Great Britain collection boasts selected items from many of the great collections previously formed:

'THE MAGNIFICENT COLLECTION' (1950), Bertram McGowan (1950), Joshua B. Seymour (1951/53), Alfred H. Caspary (1958), Maurice Burrus (1963), Sir Ernest Hunt (1966), Josiah K. Lilly (1967), Louise Boyd-Dale & Alfred Lichtenstein 'MAXIMUS' (Ronald A. G. Lee 1970/71), Joseph Silkin (1971), Gerald E. Wellburn (1976), Harold W. Fisher (1983), Howard O. Fraser (2001), Sir Gawaine Baillie (2004/2005), Lord Steinberg (2011) 'CHARTWELL' (2012), Dimitris Bertsimas (2019), Lady Joan Joicey (1967, collection sold 2021) 'BESANÇON' (2019/22). For the 'St. Lucia Mint First Issues' we find gems from the Major T. Charlton Henry (1961), Dr. Lockey, Charles Freeland, Lars Amundsen (1967), Claude Cartier (1977), 'Molly' (1996), Peter Jaffe (2007), BESANÇON (2019) and Charles Freeland (2020).

THE KARL LOUIS 'CARD INDEX'

ADDED VALUE BY PROOF OF PROVENANCE

Describing Philatelic rarities calls for more than just quoting catalogue numbers and values. Provenance is a philatelic pedigree of former owners from the inception of philately until the present day. Those collections held in the highest esteem by their contemporaries and containing the great rarities, the modern day 'Large Gold' exhibits, can be traced back to the collectors who once owned the particular rarity and the auctions where they were sold and changed hands. Frequently, the further back a philatelic pedigree goes, the more coveted the rarity becomes. Provenance is a quality seal. As in Art, Provenance is an indispensable attribute: in this case, of valuable Great Britain stamps and covers.

The most comprehensive Provenance files of rare Great Britain has been meticulously maintained by Karl Louis AIEP, FRPSL., Corinphila's Managing Director. Karl started his Great Britain 'Card Index' more than 35 years ago. Consisting of presently more than 100,000 records it is – to the best of our knowledge – by far the most comprehensive and important census of British Stamps in the philatelic world.

*« Provenance is a quality seal.
As in Art, Provenance is an
indispensable attribute. »*

All Provenances given for items offered in the 'CHATEAU DU SOUDUN' Collection – Great Britain: Mint Victorian Stamps are based on information from the 'Karl Louis Card Index' and we will provide as much information on previous owners and sales as possible. For further details, especially of what kind of items can be found in the 'Card Index' see: www.corinphila.ch

4020 1860: Prepared for use but not issued: 1½ d. rosy-mauve on blued paper, plate 1, an unused corner marginal block of four from the lower right corner of the sheet, lettered SK-SL / TK-TL, showing part marginal inscription "(Care)ful not to remove the Cement" at base and Plate Number '1' obscured by the perforations; of fabulous rich colour, the stamps brilliantly fresh and fine, merest hint of vertical gum bend at right on superb large part og. with lower pair unmounted og. A magnificent multiple of great rarity. Cert. BPA (2021) Gi G5 = £ 34'000+.

Remarks: The earliest record of unissued 1½d rosy mauves was to the best of our knowledge in the 1894 Royal Philatelic Society 25th Anniversary Exhibition in the Avery collection. As far as one can determine this block was sold in a Puttick & Simpson sale of 29-30 October 1901 in London; still as a block of six SJ-SL / TJ-TL. The 'missing' vertical pair SJ/TJ has not been recorded since.

292 "JAMES MOORE, EDINBURGH" - "FIND"

298 Corinthila Auction

"James Moore, Edinburgh": A new and sensational "Find".

What is one of the greatest pleasures to a serious philatelist, when an important philatelic "Find" is made and surfaces for the first time on the market? This obviously is something that happens less and less in classic philately. However, this is the case for the three "James Moore, Edinburgh" covers, one of which bears an outstanding franking of three 1840 2d. Blue strips of three arranged to form a stunning block of nine.

Shortly before Christmas 2022, Karl Louis was contacted regarding large and largest frankings recorded in his Card Index of the 1840 Two Pence Blue. Attached to the email was a scan of a fascinating cover bearing an extraordinarily high 16d. franking consisting of not less than three strips of three of the 2d. Blue.

Karl checked his Card Index and could not find an earlier entry or provenance for this fantastic cover.

Unsurprisingly it turned out that covers with large frankings of the 1840 2d. are extremely rare. Just four inland covers and two foreign destination covers are recorded in the Karl Louis Card Index bearing frankings larger than nine 1840 2d. Blue adhesives. As can be expected, all these large frankings, especially the four inland frankings, show serious faults to adhesives and the covers, as they were used to carry heavy contents.

Only two of these covers bear 2d. blue stamps from Plate 1.

A first cover with a 2d. blue, plate 1 strip of 12, PA-PL, plus pair OA-OB from Salisbury to Basingstoke realised, in the sale of the Charwell collection in June 2011, £ 42'000.

The second 2d. plate 1 cover bearing a strip of 12, BA-BL, on cover from Stone to George Barker in London, was offered and sold not too long ago for £ 24'000 (excluding commission).

Whilst these two covers have the 2d. blue adhesives arranged in strips, the new find of the "James Moore, Edinburgh" cover shows the three strips arranged as a highly impressive block of nine. They are in original "untouched" condition without repairs, despite the expected minor faults, the adhesives and the cover are extraordinarily fresh.

In all, an absolutely wonderful new "Find".

296 "11 Victoria 2d Blue unused"

298 Corinthila Auction

Amy Potts and the forgotten "11 Victoria 2d Blue unused".

In February 2023 Karl Louis received an email from a philatelic friend. Upon reading the message, Karl was thrilled. He was asked by his friend, if there were any records or provenances for "...a mint lower strip of 11, 1841, 2d., plate 3, lettered TA-TK showing full inscription and plate number at lower left".

The answer was quite simple: "...nothing recorded. Also no larger block from which it could have been cut....and not the slightest idea where such a strip could have come from".

Initially Karl could not believe what finally turned out to be a true philatelic sensation for classic Great Britain collectors.

The next day he received a scan of the item! To the best of Karl's friend's knowledge and due to the lack of information in Karl's Card Index, it became obvious that the strip had never been offered on the philatelic market before, nor had been part of any significant philatelic collection.

The 2d. blue strip has been in family hands for generations, stored and forgotten in a bank vault of the National Provincial Bank, one of the "Big Five" banks in Britain with a long tradition dating back to 1833. This highly important philatelic "gem" was secured in a large brown bank envelope with a manuscript notation on the front "11 Victoria 2d. Blue unused" and an additional note: "For Amy Potts". More than half a century ago, in 1970, the National Provincial Bank became the National Westminster Bank.

The notation on the large envelope

Amy Pott's "11 Victoria 2d Blue unused" takes its place amongst the most important stamp finds over the last 70 or 80 years, with:

- 1.R. OFFICIAL, 1902, Edward VII, 10 shillings mint block of 9, found in the 1940s.

- 1840 1d. Black, plate 8, re-joined mint block of 18, RC/TH, plus a strip of 3, TI-TK. Both multiples have been split into singles or smaller multiples.

- "Janet Davidson" 1840 1d. Black, plate 6 block of six, AF/BH, discovered in Scotland in 1971 in an envelope inscribed "some Queen's heads given to Janet Davidson by her father the day before he took to his bed in his last illness". This block does still exist.

We are proud to offer Amy Pott's "11 Victoria 2d Blue unused", one of the most important stamp finds for many years.
