THE ING. PIETRO PROVERA COLLECTION

ITALY, FRANCE, EUROPEAN & OVERSEAS COUNTRIES

Upon viewing the Ing. Pietro Provera Collection, it is immediately apparent that every single cover was specifically selected for its beauty. Even the more 'common' material is represented here in exceptional condition — added to which are colourful mixed frankings, uncommon destinations, rates and routes; unusual cancellations. Every item in the collection had a purpose and a place. It was the work of a determined and methodical collector.

The importance of beauty in a philatelic collection cannot be overstated. Sometimes beauty can be measured empirically — for example, in the case of mathematically-balanced margins. Other times beauty is something which cannot be quantified — rather, it must be innately felt, as is the case when one initially views the Ing. Pietro Provera Collection.

Experience a first selection of philatelic beauties from the Ing. Pietro Provera Collection for yourself on the following pages. While it may or may not 'excite your soul to tears', we are confident that the quality and aesthetic appeal throughout will serve as a reminder of why many of us began collecting stamps and covers in the first place.

« Beauty of whatever kind, in its supreme development, invariably excites the sensitive soul to tears. »

Edgar Allan Poe

6001 Austrian 1854 Revenue stamps used as postage adhesives, 1855c (Aug): Lettersheet from Trieste to Vicenza, bearing 1854 (Nov) Revenue 10 kr. C.M. green & black ('Urkunden-Stempelmarke'), copper plate engraved center, a fine and fresh adhesive in a broad format and with good perforation, tied by clear two-line "COL LLOYD / DA TRIESTE" handstamp in black (Tschillingharian fig. 11 / Müller 3425b). Reverse with "VICENZA 3/8" arrival cds and distribution cachet in black. Lightest file folds well away from the adhesive, some acid ink, of no importance for **one of the most elusive pieces of classical Austrian postal history**. A showpiece for a most advanced collection of Austrian shipmail and Austrian classic in general. Signed Renato Mondolfo, Grioni; certs. A. Diena (1963), Ferchenbauer (2023) Ferchenbauer = € 55'000.

Note: One of the rarest usages of revenue stamps to pay postage fees. Ferchenbauer and Jerger list in total only five covers / fronts with uses of the 10 kr. C.M. and 15 kr. C.M. There are two known with the 10 kr. C.M., the present letter, which is the only one with an Origin Markings for Shipmail Letters, and a cover from Triest. Bearing the 15 kr. C.M. adhesive there are known two covers and a front.

Reference: Displayed and discussed in Ing. Edwin Müller - Die Postmarken von Österreich (1927) on page 57. Listed, although not displayed in Jerger Mischfrankaturen on page 102 and Ferchenbauer, part I on page 426.

Signed Bolaffi. (Photo =  15)	22		200	(€ 200)
6006	Adriatic Sea 1868 (July 15): Entire letter from Segna / Senj to Trieste bearing 1867 5 kr. red coarse whiskers, tied by superb oval "SEGNA 15 / XII / 68 V. 6007	Adriatic Sea 1850/64c: Group ten pieces, primarily with 1850/54 adhesives, tied with VLA - Vapore Lloyd Austriaco datestamps incl. FIUME on 1858 5 kr. red (Müller 3422e = 560 points), RAGUSA (Müller 3422k = 320 points), SEBENICO, TRIESTE, and ZARA on six pieces with 1850 3 kr. red, 9 kr. blue (2), on 1858 5 + 10 Kr., on 1861 5 kr. red, and a rare strike in blue on 1864 5 kr. rose (Müller 3422qb = 700 points). 6008	Port Markings for Ship letters , Adriatic Sea 1862 (Sep 14): Entire letter from Sebenico to Borgo S. Lorenzo nearby Acquapendente in the Papal States, bearing 1861 3 kr. green, 5 kr. red and 15 kr. blue, tied upon despatch by two strikes of two-line "SEBENICO / COL VAPORE" handstamp in black (Tchilinghirian fig. 21 / Müller 3423g = 36 points), the rightmost stamp in addition by "A 3." postal treaty handstamp. Front struck by "BOLLO INSUFFICIENTE" handstamp. Reverse with MILANO and FIRENZE transit as well as ACQUAPENDENTE arrival (Sept 21) cds's in black. An interesting and desirable destination from the Adriatic harbours. <i>Note: Correctly paid 23 kr. rate in the new March 1861 postal treaty between Austria and the Papal States with 15 kr. for Austria and 8 kr. foreign postage. The taxation is not entirely explainable to the describer. Presumably the entire was erroneously directed to another Borgo S. Lorenzo situated nearby Firenze, which is suggested by the Firenze transit cds on reverse and the senseless "A 3." handstamp on front. In this case this would have been an entire from the third Austrian to the second Italian rayon which had to be franked with 26 kr. and was therefore underfranked. In Firenze the in someway confusing endorsement "Italia / Stato Pontificio" was finally understood and the entire was directed to Borgo S. Lorenzo nearby Acquapendente in the Papal States. The receiver did obviously not pay any due.</i> (Photo =  15)	19+ 20+ 22		500	(€ 505)

Reverse with SPALATO two-line transit and WIEN arrival (12 XI) datestamps. One nibbed perf at right, file fold below the adhesive without impairing it, an interesting usage away from the Adriatic Sea, cert. Ferchenbauer (1996). (Photo =  15)	34		150	(€ 150)
6010	Adriatic Sea 1869 (Dec 7): Entire letter from Curzola to Trieste, bearing 1867 coarse whiskers 5 kr. red, a fresh and fine single adhesive, tied in transit by clear "MACARSCA / 7 / 12 / COL VAPORE" cds in black (Tchilinghirian fig 25 / Klein 7947 = 250 points). 1853 (May 14): Entire letter from Braila to Ruschuk struck with circular "D.D.S.G. / IBRAILA / P.P." in bluish black (Tchilinghirian fig. 802). An exceptional strike of this very scarce handstamp on cover, the entire with heavy file folds and edge wear stabilised from the inner side, still a desirable item with this **elusive handstamp**. Signed Pfenninger.

Note: Tchilinghirian & Stephens mention that this handstamp was probably manufactured in Constantinople for fully prepaid covers with markings existing only for the offices in Constantinople, Galatz, Ibraila and Varna, starting in August 1844. The Lloyd Agency and Consular Office only opened in September 1845 and took over the the deep water services from the DDSG which restricted its services to the Danube and the route to Odessa. In the present case, this postmark was used on a DDSG service on the lower Danube, a usage which can be seen up to 1865, even as an obliterator on DDSG adhesives.

6034 1866 10 kr. lilac, a fine and fresh used example on entire letter internally dated "9/20 August 1866" from Braila to Galatz tied by oval framed **Ship Sailing Number handstamp** "ZRINYI / 149" in blue (Tchilinghirian fig. 306). The adhesive was detached from the cover and reglued with modified perforation, cover slightly filthy and filing fold away from the franking, a fine strike of this very scarce marking. Sold tel quel.

Note: The date of issuance and the first usage of the rare 10 kr. lilac is in some way enigmatic. In a letter of the DDSG to the Austrian Ministry of Commerce from March 1868 it was stated, that the single rate was already lowered from 17 to 10 kreuzer. Hurt & Kelly (1950) as well as Tchilinghirian & Stephen (1963) assumed, that the rate reduction and the simultaneous issue of the 10 kr. lilac would have happened in November 1867. However, Ringström & Tester (1981) list a group of nine covers with the 10 kr. lilac used already between July and December 1866. The present cover fits in this census as being sent on a pretty early date in August 1866, despatched by the merchant Purcowalash in Braila to the Theologo brothers in Galatz with another cover from this correspondence already being part of the census. One could argue that the first dates for the 10 kr. rate in the literature are simply wrong and that this has to be assumed in July 1866 not in November 1867. What makes the situation enigmatic is the fact that the previous issue, the 17 kr. scarlet perf. 9½ is not known from earlier dates than March 1867, i. e., after the rate should have been reduced already to 10 kreuzer.

Interestingly, strikes of this Ship Sailing Number handstamp 'ZRINYI' are nearly exclusively found on the rare 10 kr. lilac while nearly no material exists on the 10 kr. green suggesting that this vessel navigated the lower Danube primarily in the years 1866-1868.

The besiegers allowed the passage of postcards containing news about the health of the families. Alfred Rittleng, as vice-president, arranged for the printing of 50,000 cards. From 19 September 1870, thousands of such cards were delivered to the Committee. After the handover of Strasbourg on 27 September, many sacks of unmailed cards were found. Between 1873 and 1876, i.e. well into the time of the General Postal Union, mail from the British P.O. in Beirut shows always combination frankings between British and French or Italian adhesives, respectively. It is not clear why this procedure was not discontinued in July 1875 after France had joined the GPU.

- 6530** 1888 (Nov 4): Double rate Registered Envelope from Modena to Nizza, bearing the **extremely rare 30 c. brown** in combination with 25 c. blue and 20 c. orange, tied by light '18' barred obliterator with matching "MODENA (RACOMM)" despatch cds and registration label alongside. Reverse with Firenze - Torino ambulant and NICE arrival (Nov 5) cds's. File folds well away from the franking, wax seals cut out from the reverse and cover opened on two sides, nevertheless a usage of utmost rarity, correctly franked with twice 25 c. for the postage plus 25 c. registration fee. Signed Emilio & Alberto Diena; cert. Colla (2021) Sassone = € 31'500+.

Note: An extremely rare usage of the Umberto 30 c. definitive, which was sold to the public only for a short time in few larger offices such as Firenze, Genova, Livorno, Milano, Napoli, Padova, Palermo, Roma and Torino. This cover, however, was despatched nine years later in Modena by the famous philatelist and dealer Emilio Diena and directed to his elder brother Carlo Diena. Carlo was born in Modena in 1850, ten years before his more famous brother, and his activity in the philatelic trade was focussed outside the national borders of Italy. Based on the available information, it is possible to imagine that around 1891 he may have finally left Modena to Nice after the death of his father and the closure of the family banking business. As little biographical information exist about Carlo Diena, his death is reported as having occurred in 1892 in Montecarlo. However, correspondence addressed to him a decade later speaks against this assumption.

6609 186 (Jan 18): Lettersheet from Brest via Sedlic / Siedlce to Sokolow Podlask, **internally dated "8 Jan 18"**, bearing 1857 10 kopek brown & blue imperf. from Plate II, a fresh and fine right marginal example, tied by clear dotted oval '1' numeral of the border post office in Brest, nowadays Belarus. One backflap missing but an amazingly fresh and attractive cover, rare with a marginal example and tied to its late stage. Signed 'Dr. P. Jem' (Jemchov in) Mi = € 000.

Note: The 1857 10 kop. adhesive, either imperforated or perforated, is in principal a stamp which is known to be used in the year 1858 only. In the census of Guido Craveri only few dated covers are included which were used in 1859, the latest being a usage from January 1860 in Gorodishche in Belarus. The present cover, however extends the period of use by a full year and the present cover is thereby the latest usage of a Russia Number One. An additional peculiarity is the usage of a marginal example, as margins seem to be cut away prior to distribution of most of the sheets to the post offices. In addition oval dotted numeral cancellations are rare, only 13 out of 458 covers in the census of Guido Craveri were postmarked this way in a border office. And covers from Belarus are rare too, as only 12 out of 458 covers were despatched from there.

Reference: This cover and its cancellation is not yet included in the census of Guido Craveri - 1857 10-Kopeck imperforate stamp of Russia.

Provenance: Pavlovsk collection, 92. Corinphila sale (March 1996), lot 4439.
