PREFACE TO THE "GUAYAQUIL" COLLECTION OF THE FIRST ISSUE OF ECUADOR

The "GUAYAQUIL" collection of Ecuador is the finest collection of the first issue ever assembled.

Not only does it include virtually all the major items included in the Grand Prix award winning Dr. Hugo Goeggel collection, but for the first time in decades, the greatest item of Ecuador philately, the incomparable mint block of 36 of the 1866 4 reales top value has been included into a major collection of the Ecuador first issue.

This block eluded not only Goeggel, but also Bustamente, Hubbard, D'Elia, Saa, Funkhouser and other giants of Ecuador philately. It is from the Fiorenzo Longhi collection, and most recently was included in the Arthur K. M. Woo collection of World Rarities which also includes the "Pack Strip" of Brazil, and both values of the Post Office Mauritius.

E M de Bustamente

Dr. Hugo Goeggel

Norman S. Hubbard

Fiorenzo Longhi

Brian Moorhouse

The owner wishes to pay tribute to the late Brian Moorhouse, who, shortly before his untimely passing, arranged the purchase of this item. The only recorded example of the 4 reales pair printed on both sides, used on cover, also ex Woo, was added at the same time. The 4 reales mint block of 36 is a gem not only of Ecuador and South American philately, but also of World Classic Philately.

The allure of the first issue of Ecuador historically, is that whilst subsequent printings were done in Ecuador, the initial printing paper and dies came from Paris and the diversity of papers and printings arose due to the 1870 Siege of Paris, as replacement paper and ink were no longer available. The collection includes the wide variety of papers utilised including a remarkable late use of exercise book paper used to print the 1 real yellow!

Not only is the 4 reales the largest mint multiple in the collection, but this is preceded by the unique plate proof of the entire pane of the 4 reales; the only recorded full pane of the first printing of the

$\frac{1}{2}$ real, and the second largest known unused block of 18 of the $\frac{1}{2}$ real in the distinctive first printing. The unique large block of the $\frac{1}{2}$ real on "Rolland" watermark paper, ex Goeggel, which had damaged top and bottom rows, was reduced by Brian Moorhouse to the remarkably pristine block of 30 now included in the collection. The only recorded pane of $\frac{1}{2}$ real with the "BATH" watermark has also been added to the collection. The largest recorded multiple, the unique block of 18 of the 1 real green is included in the collection, and also the finest block of 4.

Guayaquil Port and City of 89

Added to the extraordinary large multiples on cover from the Goeggel collection, all retained in the collection, has been the largest franking cancelled simultaneously with the blue and red "3154" French gros chiffres cancellation used in Quito. The only recorded 1 real green registered cover has been joined by the sole recorded 1 real yellow on registered cover, never exhibited by Goeggel, but acquired from him in a subsequent Corinthila sale.

The collection has been named "GUAYAQUIL" in tribute to the port from which a very limited number of first issue stamps were used in combination with French stamps. While the Grand Prix collection of Goeggel showed no examples of these mixed frankings, the double rate combination cover, never exhibited by Goeggel, was added to the collection, as well as the cover illustrated on the front cover of the remarkable collection of French Maritime Mail sold by Soler y Llach in June, 2012, and the only recorded example of the mixed use of plain and quadrille paper first issue 1 real stamps used with French stamps on cover, acquired in 2019. The collection also shows one of two usages of the $\frac{1}{2}$ real used to Italy with

added Italian postage dues and a use of the 1 real yellow from an original correspondence written in English from Alausi, Ecuador to Vermont, USA!

In terms of the famous Chavez correspondence covers to Lima, Peru, the ½ real block of 4 ex Caspary has been added to the collection, as well as the earliest recorded uses of the ½ real to a destination abroad and the earliest use of the 1 real green abroad, a franking of 6 stamps, on the 8th November, 1865. Earliest recorded uses of the ½ real and 1 real yellow stamps used on 4th Jan 1865 have been added to the collection as well as the earliest recorded use of the 4 real on 2nd June 1866.

In terms of coloured paper, the unique 4 real pair on cover on green paper, bought by Moorhouse from the Goeggel collection; was bought back

for the "GUAYAQUIL" collection and the largest multiple of the 1 real on blued paper used to Peru was acquired.

The greatest thrill for the collector is the acquisition of new items, and having put together the greatest collection of the first issue of Ecuador, the owner has decided not to keep the collection for years, or even to exhibit it for some to see, but in consultation with Corinphila, to present the "GUAYAQUIL" collection in two hard bound catalogues for posterity, and to offer the opportunity to collectors not only of Ecuador and South America, but all collectors of classic philately, to acquire some of the great rarities of Ecuador philately.

THE CHAVEZ FIND

Prior to 1920, covers of the first issue of Ecuador were practically unknown, but about this time a very large and important find was made in Lima. The famous M. G. Chavez correspondence to the wholesale grocers in Lima was allegedly found when a collector noticed that a fishmonger was wrapping his fish in covers from the correspondence. The collector apparently exchanged regular paper for the covers.

Another version includes a stamp dealer (Snr. Julio Rachitoff) purchasing the correspondence at a knockdown amount as it was already being thrown out from a building being renovated in Lima. However, part of the find was sent to the USA where some covers were sold to a James Hardy of Glencoe, Illinois an Ecuador collector and the other "half" were sold to A. Krassa of New York City. They urged the agent to secure the balance of the find and this too was divided between the two original purchasers; many of these covers were not in the finest condition but, at the time, were nevertheless previously unknown and consequently much sought after. Mr. Krassa sold his covers through his regular channels from Nassau Street, whilst Mr. Hardy mounted his covers following dates of use and eventually sold this collection to Charles J. Phillips (former owner of Stanley Gibbons).

Benjamin Homan

Mr B. H. Homan Jr., who later amalgamated with Krassa's philatelic business (in 1926), traced Julio Rachitoff in Ecuador and purchased the cream of the find, some 200 covers in good quality. The Homan-Krassa classic stock was described by Richard Frajola and sold by Sotheby Park Bernet in 1978.

Ecuador 1865-1872

The 'GUAYAQUIL' Collection (part III)

Port and city of Guayaquil

1865, Proof Printing

Emilia Rivadeneira (1839-1916)

7501

7501 ½ real green on greenish wove paper, a fresh and fine Plate Proof on ungummed paper with large margins all round, two minor age spots at right. A scarce and most interesting Proof in the issued colour of the 1 real. It is stated that the issue was designed by Emilia Rivadeneira who copies the Greek Large Hermes Heads for her design. This Plate Proof matched very closely the Large Hermes 5 lepta value both in colour and the shade of the paper - indeed the three original stamps are in the shades utilised for the 5, 10 and 20 lepta values.

- 7502** 1 real ochre-yellow on quadrille paper, the irregular used block of eleven, positions 73-78/83-87, with good to large margins all round and portion of adjoining stamp at top right, in combination with faulty 1871/72 ½ real blue on surface blued paper, tied to judicial wrapper from Riobamba. A superb and rare multiple - *the largest used block of the 1 real quadrille paper recorded on cover*. Certs. Raybaudi (2002), Moorhouse (2011).
Provenance: Collection Fiorenzo Longhi, Investphila, Oct 2007, lot 366.

1+7 **1'000** (€1'010)

Dr. Hugo Goeggel

7503

- 7503** 1 real yellow on quadrille paper - seven horizontal pairs and six single examples used with 1871 ½ real deep blue on blued paper on large part 1873 legal front of to Latacunga and adhesives cancelled by 18 strikes of ornamental 'P.I.' geometric handstamps (Porte Interno) in black. Manuscript notation '2 libras 7 oz' (39 ounces) explaining the 19½ reales franking and reverse with QUITO / FRANCA datestamp (Jan 29, 1873). Left hand stamps with faults and the cover refolded for display but an extremely rare multiple franking, especially so with this elusive cancellation. Cert. Moorhouse (2014).
Provenance: Collection Dr. Hugo Goeggel, Corinthila sale 191, Nov 2014, lot 793.

7504 1 real yellow, a horizontal pair on quadrille paper, over-inked in a bright shade, margins touched to large at base with portion of adjoining stamp, used on 1872 entire letter from Guayaquil to Lima tied by FRANCA lozenge in black; in combination with France laureated 1867 30 c. brown pair (Yvert 30) tied by 'Anchor' lozenge of dots in black; with framed red "P.P." adjacent in red. Carried on the first Southbound voyage of the "Ville de Brest" with reverse showing circular "LIGNE F / PAQ. FR. No. 2" datestamp (May 7) in black (Salles fig. 1581) with Lima arrival cds (May 10) alongside. See article by Robert D'Elia and Percy Bargholtz in the Collectors Club Philatelist Volume 74 No. 6, illustrated in the Collectors Club Philatelist Volume 75, number 1. A remarkable and very rare entire. Opinion Todd AIEP (2006).

Provenance: Collection Dr. Norman Hubbard, Siegel, New York, 21-22 Nov 1993.

Collection Bernard Berkinshaw-Smith, Corinthila sale 145, April 2006, lot 3166.

Collection Dr. Guy Dutau, Soler y Llach, Barcelona, 4 June 2012.

**5'000** (€ 5'050)

1865/72, ½ Real on Wove Paper

7505

7505 **First Printing Group** 1865 (Jan 1): ½ real bright ultramarine on greyish wove paper with slight surface blueing, fine impression, the superb unused block of eighteen from the lower left corner of the sheet of 84 subjects, positions 49-54/61-66/73/78, the final stamp with a small closed tear, position 53 with the characteristic dented framed above "C" of "Correos" at top, full marginal rule vertically and horizontally at base, minor bends as to be expected between rows - of no significance as this multiple represents the second largest recorded of the First Printing where only blocks of 12, 18 (this block) and a block of 48 exist. Fresh and fine and of exquisite delicate colour, large part og. A lovely multiple for the classic specialist.

Provenance: Collection 'Crown Point', Corinthila sale 131,, Oct 2001, lot 6684.

7506 ½ real bright ultramarine on greyish wove paper with slight surface bluing, fine impression, the superb unused block of 42 being the right hand half of the sheet of 84 subjects, positions 7-12, 19-24, 31-36, 43-48, 55-60, 67-72, 79-84, with the sixth stamp showing a small tear, full marginal rule vertically at right and horizontally at both top and at base, minor bends between rows and some colour loss in small patches but this is of no real significance as this multiple represents the largest recorded of the First Printing where only two other large blocks (of 12 and 18) exist. A stunning multiple of great freshness with large part or unmounted original gum. One of the great gems of all South American Philately. Unique.

Provenance: Collection Bill H. Homan Jr.

Harmers, London, 15 Dec 1993, lot 1081.

- 7507** ½ real ultramarine on slightly greyish paper, a used example with four margins, clearly cancelled "Quito / Franca" datestamp "4 / ENERO / 65" - the fourth day of proposed issue and the first day of actual issue. Ex collection Olgieser. Unique.

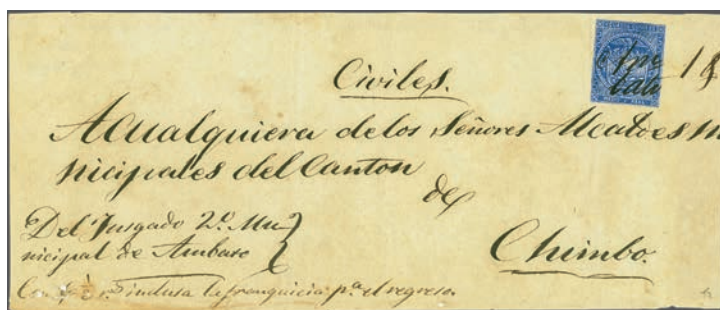

Note: The earliest recorded date of use for the Ecuador first issue is 4th January 1865 on this ½ real used in Quito and also on a 1 real orange-yellow. The 1st January 1865 was a Sunday and it is probable the stamps were delivered to Post Offices on the following day and actually issued on the 3rd or 4th of January; certainly this last date marked the first shipment of adhesives to Guayaquil.

2

600 (€ 605)

7508

7509

- 7508** ½ real bright ultramarine on greyish wove paper, fine impression, a single example position 3 with dent in frame above "RR" of Correos at top, used on 1865 cover to Guanujo with manuscript weight "1 oz." at top, cancelled by bold strike of hexagonal framed AMBATO handstamp in black. Dated on reverse in manuscript "Ambato Marrzo 30 de 1865". A fine and scarce early usage.

2

600 (€ 605)

- 7509** ½ real bright ultramarine on greyish wove paper, fine impression, a fine example used on archive dated March 1, 1865 cover front to Chimbo and weight "1 oz." at right confirming the rate, tied by manuscript "Ambato" in ink. A fine and rare usage.

2

650 (€ 655)

7510

Alboran Dujmovic

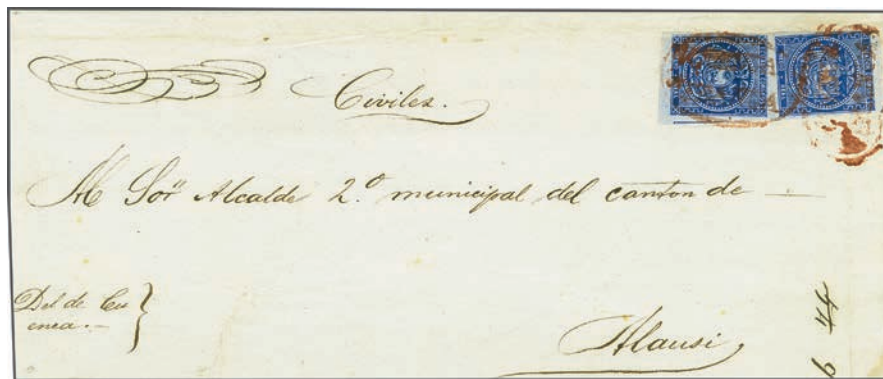

- 7510** ½ real ultramarine, a used example with irregular to huge margins all round, tied to 6 February 1865 cover to Guayaquil by manuscript "Babahoyo" in ink. A rare and early usage in the second month, prior to Babhoyo receiving its datestamp. Slight aging not affecting the fine adhesive, a rare cover and a unique usage.

Provenance: Collections Dujmovic, Longhi and Olgieser.

approx. €

- 7555** 1 real green, five single examples and a horizontal pair, all used on 1866 cover and large part back to Guaranda with manuscript weight "14 oz." at right, sensibly folded for Exhibit display, all stamps being fair to very fine and tied by two strikes of the 64 dot lozenge and by five strikes of the "Riobamba" datestamp (Feb 7). One stamp crossed by by pressed file fold but a very rare and appealing franking. Signed Holcombe.

5

**350** (€ 355)

7556

- 7556** 1 real green, the extraordinary vertical strip of nine stamps, marginal from right of sheet with portion of the vertical marginal frameline, positions 9/18/27/36/45/54/63/72/81; used with further single example of the 1 real green showing sheet margin at base, small fault, and a single early impression ½ bright blue, all tied to 1865 front of cover endorsed "21 ozs." to Latacunga by 64 dot lozenge with "Ambato" datestamps above (Nov 8). The large strip is crossed by ironed file fold otherwise in outstanding condition and strips cut this way are significantly rarer than those cut horizontally. A marvellous plating piece and a spectacular cover.

Provenance: Collection 'Crown Point', Corinphila sale 131, Oct 2001, lot 6722.

5

**1'400** (€ 1'415)

7557

- 7557** 1 real green, a sheet marginal horizontal strip of nine stamps, positions 46-54, and a single example alongside a complete horizontal strip of eight with the first stamp only half preserved (positions 28-36) used on 1868 cloth cover from Riobamba to the High Court in Quito, all cancelled by circular "Riobamba" datestamps (Feb 8) in black. All stamps with large margins all round, position 50 showing "clubfoot" to second "R" in "Correos" flaw. An exceptional cover and a most extraordinary multiple franking.

5

**2'200** (€ 2'220)

7558

Gibbons

Start price
in CHF

Start price
approx. €

- 7558** 1 real 'milky' green, a horizontal strip of nine, the complete row, positions 64-72, and a further 1 real from the row below (position 73), used with 1865 ½ real bright blue on 1865 cover to Ambato, rated "21 oz." at top in manuscript; the adhesives all tied by 64 dot lozenge and by neat "Latacunga" datestamp (Nov 29) in black. Position 64 with "Indented Left Vertical Frameline" flaw, position 66 with "Diagonal Scratch from Centre Circle to Base" Plate flaw and position 71 with "Line through Real" flaw. A delightful and very rare cover.

5

2'200 (€2'220)

7559

- 7559** 1 real green, a horizontal pair, positions 5-6 used with a wonderful strip of nine, the complete second row of the sheet, positions 10-18, all with large margins all round and neatly tied to 1865 large piece of cover to Latacunga by 64 dot lozenge in black with "Ambato" datestamp (31 Dec) alongside. Position 6 shows the "Indented Lower Frameline", position 12 shows the "Apostrophe" flaw, position 14 shows the "Beal for Real" flaw and Position shows part of the embossed "Coat of Arms" security seal. A piece in exceptional condition and of great rarity.

5+ 5b

800 (€810)

7560

- 7560** 1 real green, a truncated horizontal pair used with third printing ½ real deep blue on greyish, on 1867 'turned' cover to Ambato, cancelled by two strikes of incredibly rare mute handstamp in black with 13 point surround. Manuscript weight "4¾ oz." at top and thus correctly rated; reverse of cover with superb single ½ bright blue neatly tied by "Ambato" datestamp (Oct 11). An extremely rare cancellation with just a handful of examples recorded off cover, on cover this usage is believed unique.

Note: It is probable this cancellation was either used at an outlying village near Guaranda, or was employed for a short period when the Guaranda datestamp was misplaced.

7573 4 reales brown-red, the famous unused block of thirty six (6 x 6) from upper left corner of the sheet showing the vertical and horizontal marginal framelines, positions 1-6/14-19/27-32/40-45/52-57/66-71 on the sheet of 104 subjects; of fabulous rich deep colour, one spot, central fold and minor corner bend mentioned for accuracy only and which do not detract from the wonderful resonance of this fantastic multiple, large part or unmounted og. **A world rarity and without doubt the most important philatelic item of classic Ecuador philately.** Cert. Moorhouse (2016).

This multiple is believed to have been cut from the extraordinary multiples of 48, both of which were in the Ferrary collection (Broquelet & Gilbert, Paris, Sale XIII, 23-24 June 1925, lot 16). The lot was purchased by Charles J. Phillips (former owner of Stanley Gibbons) who had emigrated to the USA in 1922. One block was evidently split for resale by Phillips, however one block of 48 was sold to B. H. Homan Jnr. a stamp dealer of 'Homan, Krassa & Co.' who personally collected Ecuador and was the source for the Harry L. Lindquist Collectors Club article on Ecuador. It appears the multiple was again trimmed to its present state - the block is without doubt the largest and most spectacular of this iconic stamp.

7579 4 reales brown-red, a fine unused horizontal pair with variety "Printed on Both Sides", positions 99-100 on the sheet of 104 subjects, the reverse showing the horizontal marginal frameline, large part og., a fine and very scarce multiple Gi 4c = £ 750+/Scott = \$ 1'100+.

7580

reverse

7580 4 reales red, a fine unused block of six (3 x 2) with variety "Printed on Both Sides", the obverse of fine colour and large margins all round, positions 21-23/34-36, the reverse in the characteristic brown-red shade, fresh and very fine, large part og. A superbly attractive and rare multiple, the only other block this size is owned by the United States Postal Museum, thus this multiple is the largest in private hands. A major rarity of Ecuadorean Classic Philately. Signed Holcombe.
Provenance: Corinthila sale 90, October 1994, lot 7174.

- 7581** 4 reales brown-red, variety "Printed Both Sides", the famous usage on circa 1869 large part cover to Riobamba, in combination with 1865/72 1 real yellow in a horizontal strip of three, scissor cut in margin between first and second stamp, all tied by "Quito / Franca" datestamps (Jan 11) in red. Reverse of the envelope has a complete oval embossed "Republica del Ecuador / Coat of Arms" seal (as utilised on the first issue stamps). The two stamps lifted for examination and hinged back into place, a most attractive and astonishingly rare usage - just two part covers are known bearing this variety. A wonderful cover and one of the key pieces of Ecuadorean classic philately. Cert. Moorhouse (2016).
Reference: Illustrated in the 'Extracts from the Dr. Arthur K.M. Woo Collections' on page 42.
Provenance: Collection Dr. Arthur K. M. Woo.

7582 4 reales brown-red on greenish paper, a deep shade and the paper evidently tinted, the exceptional horizontal pair with vertical frameline at right (positions 38-39 on the sheet), tied to 1868 entire letter at quadruple rate to Lima by "Guayaquil" cds June 10) in black. Manuscript '2' (reales) due to pay upon receipt with arrival datestamp of Lima (June 19). An exceptionally rare entire and very probably unique in private hands.

Provenance: Collection Bill H. Homan Jnr., Payton, Isleham

7584

- 7584** ½ real blue on surface blued paper, a single example just shaved at right and with three large margins and portion of adjoining stamp at left, used with three single examples of the 1 real yellow on white wove paper (first stamp position 66) used on 1871 Papel Sellado revenue paper with black circular seal of the Republic at top, all tied by neat strikes of "Loja" datestamps (July 1) to entire endorsed "6¼ oz." and addressed to Caxiamanga. A rare usage with complete contents - especially so with the Papel Sellado.

7585 **Fourth Printing Group** 1 real dull yellow on surfaced blued paper, a single example and a horizontal pair, margins touched to large, used on circa 1872 front and part back of cover to Guaranda cancelled by two superb strikes of fancy circular CHIMBO handstamps in black. Rare.

8 (✉) **220** (€ 220)

Unlisted – 1873, 1 Real on 'Exercise Book Paper'

7586

7586 **Fourth Printing Group** 1 real pale orange on "Exercise Book" paper, two unused blocks of four, rejoined to form the lower right corner block, positions 62-63/71-72 and 80-81/89-90, with the final stamp showing the rounded SE corner; vertical frameline at right with thin inner frameline alongside; the exercise paper thin blued lines are barely visible on the front or reverse, however the reverse is unusually heavily gummed for any Ecuadorean first issue adhesive and the easiest way to identify this stamp - just two sheets were formerly held in the Stanley Gibbons reference collection hence their listing (Gi. 8). Faults to the multiple with closed marginal tear on the upper block and gum; see page on face but very rare.
