AUSTRALIAN STATES & COMMONWEALTH OF AUSTRALIA

THE 'DUBOIS' COLLECTION

This famous collection was built up over a thirty year period by a keen and discerning collector of stamps and Postal History when his other collections were nigh on complete. 'Dubois' also formed famous collections of Jamaica, British North American Postal History and perhaps the finest collection ever formed of British Post Offices Abroad (sold by Corinphila 2020/21). When his interests turned south towards Australia, 'Dubois' was aware of what to buy and this collection shows a startling degree of both quality and taste throughout.

The 'Dubois' collection boasts items from the great Australian States collections previously formed, especially the most important ones of each generation: Sir Daniel Cooper (1878), Philipp von Ferrary (1924), Arthur Hind (1934), W.H. Crocker (1938), Charles Lathrop Pack (1944/49), Alfred H. Caspary (1958), Maurice Burrus (1962), Lars Amundsen (1967), Josiah K. Lilly (1968), Dr. Mario Tomasini (1973), John R. Boker Jr. (1981), J.R.W. Purves (1981), Dale-Lichtenstein (1990), 'Manwood' (1995) and for the Australian Commonwealth collections: T.E.Field (1948), Jack Cato (1954), John Augustus Charles (Jack) Kilfoyle (1961), Jill Nette (1971), Herbert McNess (1979), Sir Gawaine Baillie (2005) and Arthur Gray (2015), to name only a few!

To be auctioned by Corinphila in four parts between November 2022 and June 2024

Corinphila Auctions would like to thank Geoffrey Kellow RDP, Pyrmont, Australia, for his valuable support in provenance and rarity research in connection with the items of the DUBOIS collection.

The arrival of the First Fleet in Australia

AUSTRALIAN STATES & COMMONWEALTH OF AUSTRALIA

The 'DUBOIS' Collection (part II)

Coming to anchor off Sydney Cove

NEW SOUTH WALES

1788 A fleet of 11 ships with convicts, soldiers and others arrived at Botany Bay in January 1788. Captain Phillip proclaimed the new colony. The first settlement was made at Sydney. The area was known as New South Wales with Sydney as the administrative centre and included all territory east of longitude 135° East.

1803 The Sydney Gazette of 10 July 1803 first mentions Postal services.

1825 „Act to Regulate the Postage of Letters in New South Wales“ under Governor Sir Thomas Brisbane.

1838 „Act to Provide for the Conveyance and Postage of Letters“ under Governor Sir Richard Bourke introduced letter charges according to weight and distance carried.

A cheap local Sydney Post is established by the issue of prepaid embossed stamped envelopes.

1848/49 Proposals for a uniform rate of postage followed by the „Act to Establish a Uniform Rate of Postage and to consolidate and Amend the Law for the Conveyance and Postage of Letters“ which took effect from 1 January 1850. The Act authorised the issue of adhesive postage stamps.

1850 The first stamps „The Sydney Views“ were issued. They were engraved locally on copper plates. The 1d. by Robert Clayton, the 2d. by John Carmichael and the 3d. by H.C. Jervis. All three copper printing plates wore rapidly and were variously re-engraved by H.C. Jervis.

1851 The second locally produced „Laureated“ issue, engraved by John Carmichael and H.C. Jervis on steel plates (1d., 2d. plate I, 3d.) and on copper plates (2d. plate II, 6d., 8d.)

1852 Stamps to prepay postage made obligatory.

1854 The third „Diadem“ issue made from engraved steel plates made by Perkins, Bacon in London.

1856 „Laureated“ Sixpence Registration Stamp.

From 1862 New issues printed from typographed plates printed by De La Rue in London.

- 20001 First Fleet 1787 (August 6):** Entire letter signed by 'N. Fowell' addressed back to South Brent, Devonshire, written by Midshipman Newton Fowell off Rio de Janeiro on board 'HMS Sirius', the Flagship of Captain Arthur Phillip's eleven First Fleet ships on the way to Australia; addressed to his father with the address slightly re-drawn and struck with two line "DOVER / SHIP-LRE" in black (Robertson S2) and rated '1/7d.' to pay upon receipt with arrival datestamp (Nov 20) on reverse in black. "We are just now off Rio Janeiro on the coast of Brazil, South America from where a Packet is now under weigh for Lisbon, I have five minutes time which I would not let slip to let you know I am very well and have great hopes of a Commission every day. I am of course very happy and like the Officers very well. Capt. Phillip has hoisted a broad pendant so I suppose he can here do anything with the Squad he pleases. I am in want of a few things which I did not find in my kit, the first some coarse cloth for towels and some table cloths fit for a Wardroom Mess, leather for shoes, cloth for trousers..". The Fleet stayed in Rio until September 4, and thence took on more stores and livestock in Cape Town, arriving in Botany Bay on January 18, 1788 (the Sirius on the 20th). Midshipman Fowell's letters upon arrival in Australia are published in book form by the Fairfax Library in Sydney. Fowell did receive his Commission to Second Lieutenant on board 'HMS Sirius', bravely volunteering to stay on board the ship when it was wrecked off Norfolk Island on March 19, 1790; he died of fever on board the HMS Supply on the way to Batavia on August 25, 1790. A truly remarkable entire and extremely rare letter in the foremost quality of great historical importance.

1860. Cancelled Stamps for Rowland Hill's nephew Ormond Hill.

Ormond Hill

On 18 April 1861 Ormond Hill, the nephew of Rowland Hill, wrote to Joshua Butters Bacon the head of Perkins Bacon and Co.:

"My dear Sir, Two or three of my friends who are collectors of Postage Stamps have asked me to procure for them specimens of new or uncommon stamps whenever I have it in my power. It occurs to me that perhaps you may be able to give me a few ..."

He added on 24 April:

"... I should be glad to have six stamps of each kind ..."

On 15 August J. Upham (for J.B. Bacon) sent the stamps to Pearson Hill with the following letter:

"Dear Sir, I beg now to send you as promised ... an envelope addressed to Ormond Hill Esq. containing 6 obliterated impressions of each of the stamps named in the list and request you will take two of each for Rowland Hill Esq. and yourself and then seal the package and forward it together with a letter which you will also find addressed to him, to Mr. Ormond Hill."

It turned out that the supply of the Crown Agents' property was given without authority.

Ormond Hill was not asked to return the „specimens“, and in fact, all were treated as private property. Nevertheless, the case destroyed Perkins Bacon as future printers for the Crown Agents.

From Peter Jaffé in "Cancelled by Perkins Bacon", published for Spink & Son Ltd by James Bendon Ltd. (1998).

1855. Chalon Heads, London Printing
1861, 'CANCELLED' Stamps for Rowland Hill's Nephew Ormond Hill.

Ormond Hill

On 18 April 1861 Ormond Hill, the nephew of Rowland Hill, wrote to Joshua Butters Bacon the head of Perkins Bacon and Co.:

"My dear Sir, Two or three of my friends who are collectors of Postage Stamps have asked me to procure for them specimens of new or uncommon stamps whenever I have it in my power. It occurs to me that perhaps you may be able to give me a few ..."

He added on 24 April:

"... I should be glad to have six stamps of each kind ..."

On 15 August J. Upham (for J.B. Bacon) sent the stamps to Pearson Hill with the following letter:

"Dear Sir, I beg now to send you as promised ... an envelope addressed to Ormond Hill Esq. containing 6 obliterated impressions of each of the stamps named in the list and request you will take two of each for Rowland Hill Esq. and yourself and then seal the package and forward it together with a letter which you will also find addressed to him, to Mr. Ormond Hill."
It turned out that the supply of the Crown Agents' property was given without authority.

Ormond Hill was not asked to return the „specimens“, and in fact, all were treated as private property. Nevertheless, the case destroyed Perkins Bacon as future printers for the Crown Agents.

Note: From 1 October 1857, the Tasmania Post Office only supplied purchasers requiring five or more complete sheets of postage stamps. The public obtained theeeior requiremens, at face value, from licensed vendors who obtained their stocks at a discount from the GPO. From 1863 onwards, a number of stamp vendors applied their own roulettes or perforations to help with separation. The Hobart firm of Walch & Sons were particularly successful, leading to an official contract in July 1869 to perforate sheets for the Post Office. The Government did not purchase a perforating machine until late 1871.

- 20416** 1870/71: Composite Essay for Stamp Statute £ 10 value by William Bell, the hand-painted design in yellow, black & slate-blue and pencil, with printed Queen's head inserted, all on slight soiled card (85 x 75 mm.) with additional printed "POUNDS" tablet at base in pale blue. Bell tendered for the engraving of the steel Die on 28 July 1871 quoting £45 for one colour and £50 for two colours. A rival tender to Bell's was received from Frederick Grosse, the engraver of the Laureates, for an engraving on wood at half the price. The decision was taken that the £10 value was not required - a pity as this Essay is visually stunning. Signed at lower right "TTa'B" (T.T. A'Beckett, the Postmaster General and Commissioner of Customs). Unique.

COLLOU & Co. / STATIONERS / News & Letter Agents / INGLEWOOD" in black with "SANDY CREEK / VICTORIA" despatch datestamp (May 3) and Melbourne arrival cds of the following day. Small opening tear on obverse. This cover is mentioned in "Gold Fever" by Kenneth J. Kutz on page 91. Rare and most unusual cover. *Note: The Post Offices in the Goldfields were wholly inadequate. This from the Maryborough & Dunnolly Advertiser of Jan 20, 1860: "The necessity for an improvement in the postal arrangements here is very manifest...complaints are numerous of persons having to wait for hours before they can obtain their letters, while some...depart and return the following day, only to find the crowds as numerous as the day before".*
