The Italian South Atlantic Airline LATI

The Martyn Cusworth Collection

The LATI service was created in September 1939 and the first flight between Rome and Brazil took place on December of the same year with this route:

- Rome – Seville – Lisbon – Villa Cisneros (Western Sahara) and Sal Island (Cape Verde (European section);
- Sal Island - Fernando de Noronha – Recife (Atlantic section);
- Recife – Rio de Janeiro (South American section).

The first airport on Sale Island was built in 1939 as a fuel and provisions stop over on routes from Rome to South America. The first flight, on arrival from Rome was on 15 December. The flight from Rome to Rio de Janeiro lasted 23 hours covering a distance of 9'200 kms. In summer 1941 the route was expanded, to reach Buenos Aires. This fine and comprehensive Exhibition collection comprises all aspects of the LATI airmail, with rare usages, publicity material and cards, stationeries used on both Westbound and Eastbound flights, showing many rare acceptances. The collection comprises not only the first flights, but also shows a wide range of all kinds of usages, including Instructional cachets, Censor markings and Prisoner of War mail relating to the December 1939 sinking of the pocket battleship 'Admiral Graf Spee' and the ensuing Internee mail.

Martyn Cusworth published the first Edition of his handbook in 2012, which quickly became the major reference regarding mail flown on the South Atlantic route by the Italian L.A.T.I. airline 'LINEE AEREE TRANSCONTINENTALI ITALIANE S.A.' The second Edition has since been published in August 2022 by the Italy and Colonies Study Circle.

of the 'Admiral Graf Spee'

- 2351→ Westbound Mail from Germany - Admiral Graf Spee Internee Mail 1940 (Jan. 23): Envelope endorsed 'Mit Luftpost Rom-Südamerika' in manuscript and 'Graf Spee' in red crayon, sent from "Wilhelmshaven 2 Jan.23" via "BPA 19 Auslandsstelle Frankfurt (Main) 2 25.1.40" to Buenos Aires, franked with 175 Rpf. and addressed to the German Embassy in Buenos Aires. Cover carried by LATI from Cape Verde by SM83 I-ATOS (Jan 28th 1940), with vertical filing fold, but an extremely rare item, concerning the Crewmembers of the famous German cruiser 'Admiral Graf Spee', which was involved in the Battle of River Plate (Dec. 13, 1939). *The ship was prevented from leaving the harbour; Captain Langsdorff consulted with his command in Germany and he received orders that permitted some options, but not internment of his crew in Uruguay! So he decided to scuttle his ship in the River Plate 17 December 1939 to avoid unnecessary loss of life for no particular military advantage. The crew of Admiral Graf Spee were interned largely on Isla Garcia, where Captain Langsdorff shot himself on 19 December. He was buried there with full military honours, and several British officers attended.*
